POLYNUCLEOTIDES MICRONEEDLE FACIAL

IDEAL FOR: FIRST SIGN OF AGING, UNEVEN SKIN TEXTURE, SKIN REPAIRING.

Presenting our Polynucleotides Microneedles Facial – a pioneering advancement in pro-aging esthetics. This sophisticated procedure seamlessly integrates micro-needling technology with polynucleotides to unlock the intrinsic regenerative capabilities of the skin. The minuscule needles delicately traverse the skin's epidermal layers, catalyzing collagen synthesis and facilitating the optimal absorption of polynucleotides, culminating in a discernibly more resilient, smoother, and rejuvenated complexion. Elevating the Skin Longevity trajectory with this skin-rich benefit facial, meticulously designed to cater to discerning and scientific excellence in achieving a luminous and age-defying visage.

EXOMUNE MICRONEEDLE FACIAL

IDEAL FOR: LACK OF ELASTICITY, FINE LINES AND WRINKLES, SKIN THINNING, ENLARGED PORES, MILD SCARS.

This innovative treatment seamlessly integrates micro-needling technology and exosomes derived from pristine umbilical cord cells, unlocking an unprecedented frontier in skin longevity. Exosomes, minute extracellular vesicles, play a crucial role by carrying potent regenerative signals and growth factors. The exosomes derived from umbilical cord cells act as messengers, orchestrating a cascade of reparative responses within the skin. This not only fortifies the skin's structural integrity but also promotes a more robust and resilient complexion. The result is a visibly strengthened and flawlessly rejuvenated appearance, aligning with the forefront of ageless beauty. As the ultrafine needles delicately navigate the skin's layers with precision, they not only stimulate collagen synthesis but also harness the regenerative potential of exosomes.
