

4G/WIFI/GPS Live Viewing 1080P 3-8 Cam MNVR Black box with SDD

Installation Manual and SDD Instructional Diagram

Note: If SDD is installed (max 4TB), all recordings will save to the SDD. It will not record to SD cards. Once SDD reaches capacity, the loop recording feature goes into effect and will start recording over older video. The only time videos will record to SD Cards is when the SDD is not inserted/detected or SDD becomes defective.
