

LiveEye 1-4 Cam Live Streaming 4G/WIFI Dash Cam System - View 1 to 4 Cams from Anywhere in the World

PRODUCT PAGE

Overview:

Our LiveEye touch screen remote live viewing dash camera series is a cost-effective, surveillance and remote monitoring system using our latest high-speed processor, and network technology with live viewing GPS positioning. This system comes standard with 1 camera with the option to add up to (4) four high definition cameras. Standard full frame recordings up to 4 cams at one time, along with multiple recording formats. Our LiveEye system allows for driver tracking and remote monitoring using our web based URL IP Server and desktop download-able CMSV6 viewing software. Receive alert triggers like G-Sensor, alarm settings and over speed settings directly to an email or as a text message when using our remote IP server and/or remote management, system. Our live viewing product are simple, elegant, anti-vibration, flexible installations, powerful functions and highly reliable.
