IMPORTANT INFORMATION

- FalconEye offers volume discount pricing and can provide a FREE volume discount quote
- FalconEye can offer a demo/sample possibly for company to review and test, please contact your sales rep for more information
- FalconEye offers a 1-2 Cam LiveEye Live streaming cam system that has a maximum of 2 cameras and is a simpler system to install and operate and is less cost. Contact your rep if this may be a better fit for you and your fleet
- FalconEye does not charge monthly charges for any product or software. You will purchase the product and you will own the product, no leases or monthly costs to FalconEye
- For features like live streaming, email/text alerts and live GPS tracking to work, our camera system must be connected to an internet source in the truck. If there is a WiFi hotspot available in vehicle, our camera system can connect to this WIFI for internet. Other options is to insert 4G Sim Card with data plan from any mobile carrier and camera system can connect to internet using this 4G Sim Card
