COMMITMENT TO *Quality, Exceptional Customer Service, AND Giving Back.*

Who we are Jacaranda Living, based in Wellesley, Massachusetts, was founded in 2004 by Cathy and Martin Deale. Now joined by their daughter, Gracie, who adds fresh social marketing expertise to the family's authentic love for beautiful linens and fine needlework.

How it started Cathy grew up in the South African town of Durban, graduated with an honors degree in social work and was determined to apply her degree to help those less fortunate around her.

Inspired by the beautiful fine quality handwork proudly produced by Zulu women who daily face financial, health and environmental challenges, Cathy saw a way to help expand their market horizons. It seemed a natural match for Cathy to support this talented but struggling community.

Armed with a determined spirit, and a basket full of beautiful handmade linen samples, Cathy now transplanted to the Boston area, went door to door visiting specialty shops on fashionable

Newbury Street. The exquisite workmanship caught the eye of the boutique owners, and the brand was immediately embraced. Thus, the inspiration for Jacaranda Living was born with its mission to provide opportunities around the world to others less fortunate than ourselves.

The Inspiration Cathy chose to name the new venture for the beautiful lilac flowering Jacaranda tree (prolific in South Africa), which symbolizes wisdom. It is said that the beauty of the jacaranda flowers feed the soul, while the seed, fruit and foliage nourish the body. Items purchased from Jacaranda Living combine beauty with quality workmanship for gifts that last made with care in socially responsible environments.

Thank you We hope the beauty and quality of our products bring joy to your home and family as they do to ours. We invite you to shop our catalog and visit our website to find gifts that will bring the happiness and strength of Jacaranda Living to those you love. We are grateful for your support and thank you for helping to enrich the lives of the communities who made them.
