

HyperBlok (GaN)

The HyperBlok features the latest GaN (Gallium Nitride) power technology that allows ultra-fast charging speeds (up to 65W) while reducing product footprint by nearly 50%. The HyperBlok can charge up to 3 devices at once (2xUSB-C + 1xUSB-A), including laptops, mobile phones, and a variety of electronics. Gone are the days of needing multiple and bulky chargers! Showcase your brand via vibrant full-color digital print. Each individually packed in premium retail gift box.
