ALED FRANCIS, JANE'S WIDOWER

UNFORTUNATELY,
JANE WAS ONE
OF THE 51%
WHO DID NOT
LIVE BEYOND
FIVE YEARS
POST DIAGNOSIS

Jane's story is a poignant reminder that behind every statistic is a human life. Of the 1,815 Australian women diagnosed with ovarian cancer last year, only 889 of them (49%) will be alive 5 years from now.

Ovarian Cancer Socks are working to change the odds. In time for Christmas, a limited edition boxed sock set is available online at cancersocks.org for \$29.50 with **100% of net proceeds** going to the *Ovarian Cancer Research Foundation*, Australia's leading independent ovarian cancer research body.

Please consider purchasing a set for yourself or a loved one and stay up to date with the latest news by following campaign socials.
