

## CATUG EGFP mRNA-LNP

Catalog No. CT1003

### Product Summary

EGFP mRNA-LNP is a lipid nanoparticle (LNP) containing Enhanced Green Fluorescent Protein (EGFP) mRNA. LNP can facilitate transfection of encapsulated mRNA into cells or *in vivo* delivery. After transfection *in vitro* or endosomal escape *in vivo*, mRNA can be released and translated into EGFP. This product is suitable for research of RNA delivery, translation efficiency, cell viability, etc.

### Unit Size

	<b>CT1003</b>
EGFP mRNA-LNP	100 µg

### Product Information

<b>Name</b>	EGFP mRNA-LNP
Concentration	0.1 mg/mL
Storage Temperature	-80°C to -65°C
Shipping Condition	Gel coolant/dry ice

### Product Applications

1. Analytical or process development
2. *In vitro* or *in vivo* expression and distribution
3. Experimental control reference

### Notes

This product is for research use only and is not intended for diagnostic or therapeutic use in human.
