

Reva is a touchless wet wipe dispenser. By applying the fluid at the point of use, a cellulose towel can be used in lieu of a traditional plastic towelette. Single hand operation significantly reduces the risk of cross-contamination. It features a removable and refillable fluid reservoir. Each Revawipe is dispensed consistently saturated, ensuring optimal usage and effectiveness for each wipe. Users have the ability to choose a Revawipe or a dry towel by simply waving in front of the ((WET)) or ((DRY)) sensor.

SPECIFICATION DATA

General Information	
Manufacturer	Medtekk, Inc
Product code	D-1101
Product Specification	
Product Color	White
Product Material	Impact Resistant ABS Plastic
Placement	Wall Mount or Countertop Mount
Height	18" (46 cm)
Width	12.5" (32 cm)
Depth	8" (20.5 cm)
Roll Capacity	700 wipes
Fluid Reservoir Capacity	500 wipes
Unit Weight Loaded	17.33 LBS
Unit Weight Empty	10.15 LBS
HTS Code	8479.89.6500
ISO Compliance	9001 : 2015
Packaging Info	
Packaging Size	<div>Height11" (28 cm)</div> <div>Width15" (38 cm)</div> <div>Depth20.5" (52 cm)</div>
Gross Shipping Weight	11.28 Lbs
Pallet Quantity	30 Units

Power Supply Option	
AC/DC Power Options	
Input	100-240V~50/60Hz 0.6A
Output	8.4 volts DC- 5A
Battery	
C Size Alkaline	6 PCS
