

PR15 4” Dimmable Kits – Dimming Switch compatibility List

LED driver for PR15 4” Dimmable Kit will work with good quality line voltage (phase) dimmers, both leading edge & trailing edge dimmers.

Line voltage dimming controls and drivers must be matched to operate at specific voltages.

Refer to specific dimmer model instructions for proper installation and loading information.

Leading Edge: Forward phase dimming for use with incandescent loads.

Trailing Edge: Reverse Phase dimming for use with electronic low voltage loads.

PR15 4” Dimmable Kits – Dimming Switch compatibility List (non-inclusive)

Lutron Skylark

S-600P/CT-603P, SELV-300P

Leviton Sureslide

6621, 6631, 6615

Lutron Nova

NF-10, NFT-10

Leviton Vizia

VP106, VZE04, VPE06

Lutron Diva

DVSCCL-153P, DVCL-153P

DVWCL-153P, CTCL-153P

TTCL-100H, DV-600P

DVELV-300P, NTELV-300

Leviton Lyneo

LLSI-501, LLSI-502

Leviton Rania

RNDI-252

Lutron Maestro

MA-600, MAELV-600

ELCO Gli

ELKO400Gli

Leviton IllumaTech

IP106, IP110, RP106, IPE04
