

Etude[®] Plus

A complete solution for
Community and Residential care

With its attractive aesthetics, flexible design and easy handling, the **Etude Plus** is ideal for Community and Residential care. The **Etude Plus** offers the option of innovative '**Shear Management Technology**', which helps to reduce shear and friction forces; key factor in the prevention of pressure ulcers. The backrest auto-regression mechanism swings up and back as the bed profiles, reducing the propensity for the client to slide down the bed.

Modern and Flexible

The streamlined, discreet design perfectly complements any interior. The bed can be configured with steel or wooden side rails with the option of ordering the bed with an extra wood plate to cover the bed end actuator if required. Small details make a big difference to personal comfort, as the **Etude Plus** can be customised with auto-regression for increased comfort and reduction in shear and friction.* A lockable hand control is also available for increased safety. The standard, built-in double-brackets are designed to suit any client's transfer needs by offering different positions (entrance height of 400 mm or a lower alternative of 330 mm).

Easy handling & storage

Portability and storage are key benefits of the **Etude Plus**. Its simplistic design allows easy assembly and dismantling without tools, and the process can be safely and comfortably managed by one person (each section weighs less than 25 kg). The bed ends can be easily attached to the transport unit making the **Etude Plus** lightweight and manoeuvrable for handling and storage.

Highest possible safety levels

The **Etude Plus** fully conforms to IEC 60601-2-52, the standard for beds. This equates to the highest degree of safety for both client and carer. The **Etude Plus** is compatible with three different ranges of side rail which all meet these stringent safety standards.

Features and options

Built-In low version with double brackets

Easy and quick attachment of mattress support to bed ends in either 400-800 mm or 330-730 mm adjustment height.

Easy Maintenance

Motors can be dismantled without tools. The cabling between the control unit and the motor is easy to access and replace.

Shear Management Technology

Improved comfort when seated. Reduced shear and friction.

Hand Control

Slim, ergonomic hand control. Choose with or without lockable functions (lockable handset available as an option).

Features and options

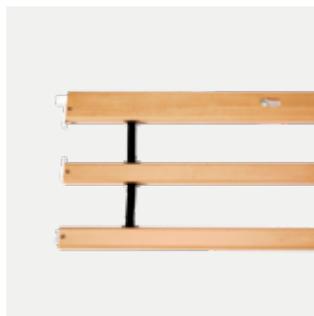

Etude Plus - At home in the home

An emphasis on design ensures the **Etude Plus** blends into Community and Residential care environments perfectly. To further enhance the stylish design features, bed ends supplied with wooden panels which cover the bed end actuators are available.

Turnable Support Handle

The turnable support handle provides good support when moving into a standing position.

Britt V

Full-length side rails in beech. Compliant with IEC 60601-2-52.

Line/Line Extended

Full-length aluminium side rails. Compliant with IEC 60601-2-52.

Height Extender

Height of full-length side rails can be increased by 150 mm.

Lifting Pole

Light and easily adjustable (optional).

Transport Kit

For easy storage and enhanced portability.

Mattress Support Extension

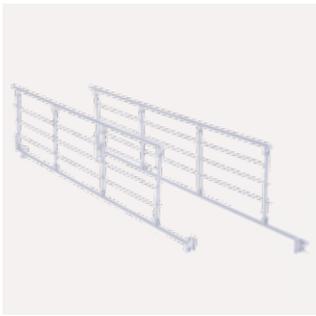

For maximum customisation and personal comfort, an additional extension of 200 mm can be fitted.

Cover for wooden side rail

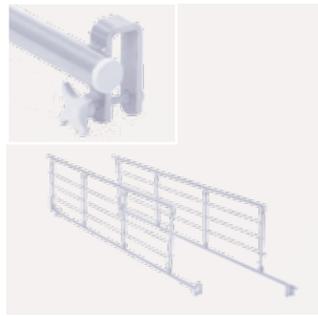

Padded cover for wooden side rails. Cover remains in place when side rail is lowered. Available in standard, padded and net.

Features and options

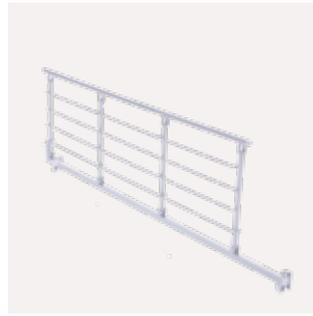

Invacare **Scala Basic 2**

Foldable steel side rail. Compliant with the new standard for beds IEC 60601-2-52.

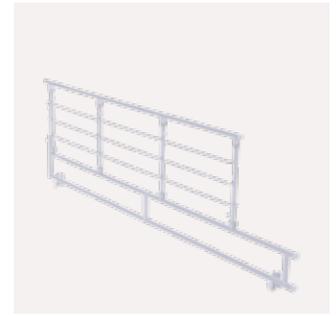

Invacare **Scala Basic Plus 2**

Foldable steel side rail with plastic inserts at the mounting brackets. Compliant with the new standard for beds IEC 60601-2-52.

Invacare **Scala Medium 2**

Foldable steel side rail for deeper mattresses. Compliant with the new standard for beds IEC 60601-2-52.

Invacare **Scala Decubi 2**

Foldable steel side rail for deep mattresses such as Dynamic systems. Compliant with the new standard for beds IEC 60601-2-52.
