## Bowl Toler Traine/Basic Builder

Executive Automation Systems (Moorfeed Corporation), a growing Automation and Parts Feeding Equipment manufacturer, is looking for Bowl Toler Traine's. This entry level position is an opportunity to gain the skills and knowledge to fabricate and tool vibratory feeder bowls. This is a niche industry that is growing and looking for candidates who already have TIG welding experience. The position will be primarily responsible for fabricating basic vibratory feeder bowls based on project information provided by engineering. All training will be provided.

### Job Responsibilities

- Fabricate basic vibratory feeder bowls
- Cut, roll, and weld various grades of stainless steel
- Grind and polish stainless steel utilizing abrasive materials and tools
- Adhere to standard manufacturing and quality procedures
- Perform other vibratory bowl related work, including but not limited to: polishing, tuning, tooling re-works, and off-site service work.
- Show up for work every day on time
- Show mutual respect for coworkers
- Maintain a positive attitude
- Other duties as assigned

### Requirements

- Proven experience as a TIG welder – A weld test will be given prior to hiring
- Ability to read and interpret technical documents and drawings
- Knowledge of relative safety standards and willingness to use protective clothing (face-shield, gloves etc.)
- Team player, able to take direction
- Ability to lift 50-75 lbs.

### Job Offering

- Personal Time Off within 30 days
- Health Care
- Dental
- Vision
- Term Life
- 401K

Moorfeed Corporation is an equal opportunity employer and value diversity. All employment is decided on the basis of qualifications, merit and business need.
