

Celebrate with friends: A summer evening with Feuerhand

Magdeburg, March 2024. During summer, we can finally enjoy the evening hours outdoors again and celebrate the balmy nights - preferably in the company of good friends. As dusk settles over the city, the glow of the Feuerhand LED Lanterns bathes the roof terrace in a warm light. The backdrop for shared moments could hardly be more beautiful.

As the guests arrive, the flames in the Pyron Fire Barrel are already blazing to preheat the Plancha Plate. The Griddle Plate is instantly ready for a Spanish-style plancha barbecue and a grill master is quickly found. And who says it's always just men who barbecue? Everyone loves barbecuing on the Pyron Plate. The rest of the group looks forward to salmon, prawn skewers, corn on the cob and bell pepper strips with that special roasted aroma.

The Feuerhand LED Lantern is a must for summer evenings on the roof terrace. The new generation of the legendary Feuerhand Hurricane Lantern sets the tone with warm lighting accents on the table and in the pergola. At first glance, the new edition of the iconic lantern looks just like its predecessor. However, it is equipped with modern LED technology. Its light can be continuously dimmed using the petroleum lantern's fuel cap - from subtle lighting to bright light.

After dinner, the evening is spent by the Fire Bowl. A crackling fire is the ideal place for good conversation. We toast to life while enjoying some light snacks and the view of the city. Cheers!

Feuerhand - Moments Made Light

The modern yet traditional Feuerhand brand is all about light moments spent under the open sky in a convivial and cosy atmosphere. For over 125 years, Feuerhand has been at home around the world, wherever people gather outside around a warm, reliable light. The iconic paraffin lamps are the cornerstone of the range. In their constant glow, the timeless portfolio around light, fire and convivial pleasures keeps growing. The innovative and functional Feuerhand products for the garden, the terrace, the balcony or on the go create moments of ease and put every feel-good place into the right light.

Feuerhand has been part of the Petromax Group since 2014. The product range is available through a growing international network of specialist dealers as well as through its own webshop.
