

# E-HAWK 6

## THE ALL NEW 2024 DENAGO POWERSPORTS E-HAWK 6

is the most advanced electric ATV for the 6 and up age group in the powersports industry to date.

While still incorporating all the features the gas powered Mudhawk 6 has, the E-Hawk 6 brings all the advantages of electric technology and App programmability to the rapidly growing youth market.

The E-Hawk 6 features an all-new Control App that downloads to your phone then allows the parent/guardians to control speed in 5 mph increments and shut off the vehicle if needed. It also allows them to monitor vehicle information like Battery level, run time and even vehicle location.

The E-Hawk 6 also features a 48V Lithium-ion Removable battery paired with a 1600W Electric motor. It also features an industry first Maintenance Free open differential direct drive powertrain, designed to offer the best roll over mitigation ever in a youth ATV.

With almost too many features to list this 6 and up youth ATV will certainly be the highwater mark all other manufactures try to rise too.

## PERFORMANCE

- 750W/1600W Brushless Electric Motor

## COLOR OPTIONS

## OWNER'S MANUAL

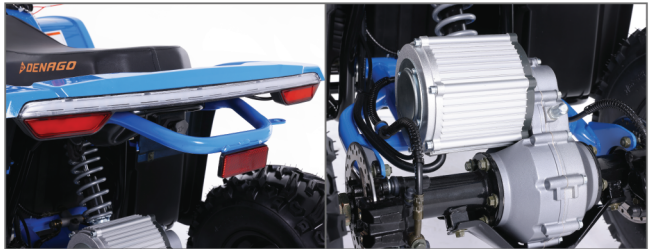

Read Owner's manual and all on-product warnings. ATVs can be hazardous to operate. For your safety, always wear a helmet, eye protection, and protective gear. Never carry a passenger. Never ride under the influence of drugs or alcohol. Never ride on public roads or pavement. Be extra careful on difficult terrain. All children under the age of 16 riding ATVs should always have adult supervision. Denago Powersports also recommends that all ATV riders take a training course. For more information contact your local dealer or call (800) 276-8949
