CLEANING INSTRUCTIONS FOR PLASTER

FREQUENTLY DUST PLASTER ITEMS WITH A MICROFIBER CLOTH, MAKING SURE TO REMOVE ALL DIRT AND DUST FROM THE CREVICES AND SURFACE. IF THE PLASTER REQUIRES CLEANING, REGULAR HOUSEHOLD BLEACH LIGHTENS THE GRIME AND WASHES AWAY THE DIRT WITHOUT DAMAGING THE PLASTER. MIX 1-PART BLEACH WITH 3-PARTS WATER. DAMPEN A SPONGE WITH BLEACH MIXTURE, SQUEEZE ANY EXCESS LIQUID FROM SPONGE AND GENTLY WIPE PLASTER SURFACE. IT HELPS TO WORK FROM THE BOTTOM TO THE TOP OF EACH ITEM IN ORDER TO PREVENT OVER-SATURATION OR RUN-OFF. AFTER CLEANING, WIPE DOWN THE SURFACE WITH JUST WATER. DRY PLASTER WITH A CLEAN, DRY SOFT CLOTH.

CARE AND CLEANING INSTRUCTIONS FOR ALUMINUM

ALUMINUM CAN BE CLEANED AND MAINTAINED WITH LUKEWARM WATER AND A MILD DISH SOAP SUCH A S DAWN. USING A SOFT CLOTH, DAMPEN IN SOLUTION TO GENTLY REMOVE ANY DIRT OR DEBRIS. AVOID USING HIGHLY ABRASIVE SCRUBBING MATERIALS, METAL BRISTLED BRUSHES, STEEL WOOL OR BLEACH-BASED CLEANERS. MATERIALS SUCH AS THESE WILL SCRATCH THE SURFACE OF THE ALUMINUM. WITH THE WEDGE SCONE, YOU CAN ALSO DUST THE BACKPLATE ALUMINUM WITH A MICROFIBER CLOTH.
