

Normblock Multi 80/200

All Polypropylene Pump 1750 RPM
(10 & 15 HP)

Redefining the limits of plastic pumps. The Normblock Multi takes the non-corrosive and lightweight benefits of plastic higher than any other American manufacturer.

Features

- This pump has a robust horizontal single stage design.
- Superior slow (1750 rpm) running design reduces vibrations, resulting in quiet operation.
- The housing is made of high performance, corrosion resistant polyurethane.
- Heavy duty, energy efficient, totally enclosed fan cooled (TEFC) motor, Class F insulation, protection class IP 55.
- Shaft coupling allows motor to be replaced without replacing mechanical seal.
- A high wear, rugged Carbon/SiC - EPDM mechanical seal allows for long life and long maintenance intervals.
- SiC/SiC seals available for marine applications.
- Available with 4" and 6" suction.
- Optional 6" strainer tank for horizontal flooded suction applications.
- Impeller shaves available for exact duty points with minimal turnaround time.
- Every pump is tested to factory & customer specifications, with comprehensive individualized test results.
