Providing a 'New Era' of Tissue Salts

Run by experienced homeopath Andrew Lowe LCH

Tissue salts were originally formulated in the late 1800s by German physician Dr W.H. Schuessler. Today they are as popular as ever and are a safe and inexpensive way for people to self-treat many illnesses. Up until 2013 tissue salts were available over-the-counter in the UK from chemists and health shops with New Era being the most popular brand.

IMPORTANT NOTE: Tissue salts are safe, effective medicines prepared from homeopathically prepared ingredients. They taste pleasant and can safely be taken alone or alongside conventional (allopathic) medicine by the whole family with no side effects or risk of overdose. Current law states that no claims can be made for the therapeutic use of any remedies in the treatment of medical conditions unless a medical licence has been issued. The suggested uses for the natural products listed are therefore for your guidance only and are based on traditional use, anecdotal evidence and current research. If you have any doubts as to their suitability for your own use then please consult a registered health care professional.
