

LIFE FORCE[®]
PLATFORM[™]

Multi-task mycorrhizal inoculum with
Trichoderma and beneficial bacterial species.

Life Force[®] Platform[™] contains four key strains of mycorrhizal fungi. These fungi burrow into the emerging root and create a network of fine hyphal strands in the soil providing a tenfold increase in root surface area. An effective suite of beneficial bacteria, as well as the multi-function workhorse, *Trichoderma*, are also included in this comprehensive formulation.

BENEFITS

- Increase mineral uptake – especially Zn, P and Ca
- Build soil humus
- Reduce fertiliser requirements
- Production of beneficial biochemicals to nurture the host and improve resilience

PACKAGING: 150 g

Product Code: LFPLAT-150

Platform™

APPLICATION RATES

Soil:

- Apply to plant roots by adding 1 teaspoon to a 9 L watering can and wetting the root zone thoroughly. 9 L covers approximately 4 m².
- Agitate throughout application.
- Apply at bed preparation or whenever planting new seedlings.

Seedling Dip:

- Dip seedlings in a solution containing 2 teaspoons of Platform™ per litre.
- Stir solution regularly throughout process

INSTRUCTIONS

- Platform™ forms a suspension when mixed with water (i.e. it does not dissolve). Constant agitation is required during application.
- If using for seed treatment, ideally use equipment designed for inoculation that can accommodate larger particle sizes. Do not use with fine filters or nozzles.
- Ensure compliance with your quality assurance code of practice regarding the use of microbial products before use.

IMPORTANT

Keep out of reach of children. Contains live organisms. Do not mix with pesticides or toxic chemicals. While handling and applying microbial products protective clothing, gloves and face masks should be worn. Store in a cool, dry place, preferably refrigerate. Do not freeze.

STORAGE & HANDLING

Immuno-compromised persons (e.g. those undergoing chemotherapy) should not handle or be exposed to microbial products. While handling and applying microbial products protective clothing, gloves and face masks should be worn. Contains live organisms. Avoid aerosols generated by aeration. Store in cool, dry place away from sunlight and below 30°C (preferably under refrigeration). Use as soon as possible after opening but if this cannot be achieved then refrigerate remainder immediately after use and use within 3 months. Contamination of contents may occur at any time after opening and NTS takes no responsibility for opened product not used immediately. DO NOT FREEZE.

Disclaimer: Any recommendations provided by Nutri-Tech Solutions Pty Ltd (NTS) or its Distributors are advice only. As no control can be exercised over storage, handling, mixing, application or use, or weather, plant or soil conditions before, during or after application (all of which may affect the performance of our program), no responsibility for, or liability for any failure in performance, losses, damages, or injuries (consequential or otherwise), arising from such storage, mixing, application, or use will be accepted under any circumstances whatsoever. NTS recommend you contact an Agronomist prior to product application. The Buyer assumes all responsibility for the use of any NTS products.
