Meet me at our spot

Like any rock star PolonaPolona comes to your stage decently prepared. We carefully tailored POS presence using a wide range of creatively juicy and visibly practical elements.

You got the look

You said it before and we will hear it again: we created the best boxes ever. In a world where first impressions matter, their display takes the cake.

All the things we do for Love

Quality is our middle name.

We insist on handmade bone china porcelain painstakingly obtained through a nine-step process.

We ensure that all closely monitored materials used in our bone china are well-mixed and suitable for vegans.

Double firing at 1260°C makes our porcelain durable and translucent, giving it a gorgeous white colour with a precious golden tinge.

In a microwave or dishwasher, this porcelain feels like in a wellness or a spa. Expect awe-inspiring resistance to scratch and thermal shock.

All shapes and sizes can withstand temperatures up to 250°C.

The whole collection was designed in Europe, where the carefree sipping of coffee was invented, and competent tea slurping was institutionalised.

With a little help from my friends

We make it in the homeland of bone china porcelain, China, in a SEDEX audited factory, which we visit yearly and keep close and friendly contact with the owners.

Don't you forget about me

Regardless nostalgic notes PolonaPolona is a digitally savvy brand - it gently cultivates social media presence as main infomercial channel and also has a hand-full of freebies for its friends.

From me to you

Polona landed on this world in 1973 in the capital of Slovenia, Ljubljana. 25 years later she graduated from L'École Supérieure des Arts Appliqués Duperré in Paris. Creative years started with a series of costume design, fashion and illustration projects. After a few years, she added some kids and dogs to the mix.

In 2012 – big change. Polona started drawing smart-mouthed portraits on porcelainware just for the pure fun of it. Her work was an instant success, and the passion project quickly evolved into a brand and brand into a small business. But passion is still leading the show.

"I'm a big fan of popular culture in any form. Books, films and exhibitions are my soul food. As a believer in creative excellence, I insist on doing all the artwork myself. I do it to share my inspirations with you."

Polona, the one with the brush
