Dermacalm Starter Pack

Dermacalm

Starter Pack

Soothe & hydrate sensitive skin

Dermacalm Face & Body Wash

head to toe cleansing

This head to toe sulfate free cleansing treatment contains gentle yet effective plant based surfactants.

The synergistic combination of Aloe, Calendula, Oat, Lavender, Chamomile, Blue Tansy and a touch of cooling Peppermint quickly soothes, calms, and comforts sensitive or irritated skin.

Suggested use: Suitable for the entire family for head to toe cleansing. Apply directly to wet skin or massage onto skin with a damp cloth, sea sponge, or loofah.

Dermacalm Toner

soothing, hydrating elixir

A synergistic combination of rose, neroli, and chamomile floral waters effectively calm, balance, and tone sensitive or irritated skin. Aloe, calendula, bacopa and green tea extracts offer exceptional antioxidant and anti-irritant

properties. Moroccan blue tansy is one of the most powerful anti-allergic and anti-irritant essential oils. A special oat amino acid complex, Sepicalm S^{\circledR} , effectively soothes and moisturizes to promote healthy skin.

Suggested use: For all skin types. After cleansing, spritz over face and neck. Follow with Dermacalm Lotion or Dermacalm Night Creme. May also be used as a light moisturizer or re-applied during the day to refresh and calm the skin.

Dermacalm Lotion

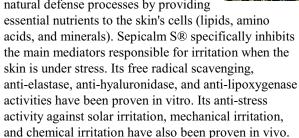

head to toe treatment for sensitive or irritated skin

An innovative combination of calendula and licorice liposomes, a special oat amino acid complex, monoi, and shea butter to calm, moisturize and protect skin.

Rovisome Sensitive® is a natural plant complex, comprising a liposomally encapsulated combination of calendula and licorice root extracts with excellent anti-inflammatory properties proven in dermatological tests. Rovisome Sensitive® was tested by an independent institute for its anti-inflammatory effects using the UV-model. In direct comparison with a prescription formulation containing 1% hydrocortisone, Rovisome Sensitive® showed anti-inflammatory effects almost as strong as the hydrocortisone.

Sepicalm S® is a special oat amino acid complex. It is soothing, moisturizing, anti-inflammatory and anti-oxidant. In the short term, it acts specifically by fighting skin inflammation caused by an irritant. In the long term, it synergizes and potentializes the skin's natural defense processes by providing

Suggested use: For all skin types. Apply generously to face and body after cleansing or bathing. Reapply as often as needed.

Dermacalm Body Butter

soothe, hydrate, and promote healthy skin

Head to toe skin soothing treatment. Our synergistic blend of Aloe, Primrose, Jojoba, Calendula, Oat, Lavender, Sandalwood, Vetiver, Spearmint & Blue Tansy soothes, calms, comforts and protects sensitive, irritated, and problem skin.

Suggested use: For all skin types. Apply to skin as often as needed. May also be applied to delicate areas to soothe and protect skin. Avoid eye area.

Dermacalm Shave Gel

excellent glide with a soothing finish

Both men and women will appreciate the excellent glide, soothing finish, and luxurious aroma of this innovative shave gel. As with all of our formulations, this product is sulfate and paraben free.

Plant based surfactants and conditioners soften hair and skin for a smooth, razor burn free shave every time.

Calendula extract and Blue Tansy essential oil sooth and comfort skin irritation leaving your skin feeling fresh and calm after shaving.

Green Tea extract in combination with Frankincense, Sandalwood and Mandarin essential oils brighten, tone and smooth to improve the appearance of aging or problem skin.

Suitable for face, legs, and even delicate areas.

Suggested use: For all skin types. Apply shave gel to wet skin. After shaving, rinse well and follow with Dermacalm Toner.
