Use the following link to train the use of the hemaPEN.

[link: use the following link to train the use of the hemaPEN]

1. Remove hemaPEN® from packaging.
2. Remove seal.
3. Touch hemaPEN tip onto the surface of a large blood drop.
4. Swiftly push hemaPEN down until it clicks. (Immediately after step 3)
5. Turn hemaPEN to ensure blood storage. (Immediately after step 4)

Collect 10 sec.

Delivering better patient outcomes.
Derived from standard capillary blood collection, hemaPEN provides additional benefits for better patient outcomes:
- Accurate, fixed micro-volume of blood – for quantitative testing, leading to better understanding of conditions.
- Minimally invasive sampling – enabling more frequent testing for better care decisions.
- Elimination of cold-chain – for simplified logistics and to promote out-patient sampling.
- Contained, dry sample – for minimizing contamination risk and improved sample integrity.
