Instructinal video

Use the following link to train the use of the hemaPEN.

[link]

1. Remove hemaPEN® from packaging.
2. Remove seal.
Prepare blood sample then follow steps in one continuous motion.

3. Touch hemaPEN tip onto the surface of a large blood drop.

4. Swiftly push hemaPEN down until it clicks.

5. Turn hemaPEN to ensure blood storage.

Collect 10 sec.

Immediately after step 3. CLICK Hold upright 2 sec.

Immediately after step 4.
Delivering better patient outcomes.

Derived from standard capillary blood collection, hemaPEN provides additional benefits for better patient outcomes:

• Accurate, fixed micro-volume of blood – for quantitative testing, leading to better understanding of conditions.
• Minimally invasive sampling – enabling more frequent testing for better care decisions.
• Elimination of cold-chain – for simplified logistics and to promote out-patient sampling.
• Contained, dry sample – for minimizing contamination risk and improved sample integrity.
