Better patient outcome

Instructional video
Use the following link to train the use of the hemaPEN.

1
Remove hemaPEN® from packaging.

2
Remove seal.

3
Touch hemaPEN tip onto the surface of a large blood drop.

Collect
10 sec.

4
Swiftly push hemaPEN down until it clicks.

Immediately after step 3.

CLICK

5
Turn hemaPEN to ensure blood storage.

Immediately after step 4.

Hold upright
2 sec.

Delivering better patient outcomes.
Derived from standard capillary blood collection, hemaPEN provides additional benefits for better patient outcomes:

• Accurate, fixed micro-volume of blood – for quantitative testing, leading to better understanding of conditions.
• Minimally invasive sampling – enabling more frequent testing for better care decisions.
• Elimination of cold-chain – for simplified logistics and to promote out-patient sampling.
• Contained, dry sample – for minimizing contamination risk and improved sample integrity.
