Hi [redacted]

We would need to see an actual study plan to assess our interest in participating as well as to evaluate the testing regime as is standard in our industry

In our experience watching what happened to Crye Precision with MultiCam if you could provide us with a declaration in writing that WB /USAF/DOD/USG will not in anyway attempt to copy our intellectual property we would be happy to participate as an actual partner if you cannot provide this level of reassurance then just let us know and we'll be happy to process your refund

Hey Justin

We are doing body temp monitoring using a variety of COTS cooler tech with the following groups out at Nellis this upcoming week
 Outfitting users allowing normal job function evaluating feedback

- 99th SFS
- 59th TES
- 57th MXG

At this point we are packing tomorrow to travel on Tuesday early if you want your system included please expedite shipping
 Otherwise can see that you have already charged my card so please issue a refund We are hoping to wrap the COTS evaluation after this trip so there won't be a need

Hope your team has a Happy 4th! Thanks

Best Regards

So it's been 12 days since the order and this still hasn't shipped? My team was hoping to do some testing with these units on an upcoming trip to Nellis AFB

What can we do to rectify this?

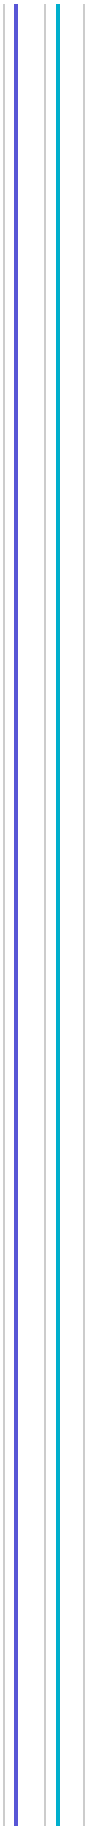

Joe
