

ICEVENTS SHOULDER PADS WITH CORD MANAGEMENT

featuring Stimulite honeycomb
by Supracor™

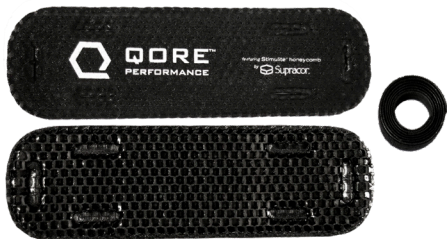

SUMMARY

IceVents are an advanced shoulder pad for Plate Carriers, backpacks, the IcePlate Safety Vest, or any number of shoulder-mounted accessories. The result of an exclusive collaboration with Supracor, IceVents feature Stimulite impact-absorbing hexagonal honeycomb thermoplastic elastomer (TPE) technology, used and proven in many of the world's most advanced aircraft and medical products.

Includes 48" of Back2Back hook and loop, enabling simple, custom installation and cord/tube management.

Simply cut to your desired length!

BENEFITS

- Omni-directional venting keeps you dry and comfortable
- Proprietary load distribution honeycomb architecture dramatically outperforms foams, reducing fatigue
- Abrasion-defiant, anti-microbial, water-resistant

WARRANTY/RETURNS

We've got your back. IceVents will stay strong, or your money back.
