

# HVAC Year-Round Protection Certificate

For Eligible Homeowner's Insurance Savings

The HVAC Drain Cleaning System currently installed in your residence may entitle you to savings on your homeowner's insurance. You should check with your insurance agent or broker to determine if you are eligible.

iFLO is the only Smart connected device which automatically dispenses cleaning solution into the drain pan and drain line to ensure the condensation drainage flows as designed. By having iFLO installed the AC will work at peak performance and prevent costly drain pan overflows which lead to flooding, water damage, and mold remediation.
