lights&lamps

Brand Overview

lights&lamps is a UK-based lighting company founded by design experts Niki Wright and Scarlett Hampton. Launched in 2020, the design duo has over 25 years of experience in the lighting and retail landscape, having designed for the British high street, continuously providing thoughtful solutions for the lighting industry. An online platform for design-led lighting, lights&lamps has now expanded its offering to the US market, with specialist manufacturing practices and logistic factories located in key regions. Each lighting solution is cleverly engineered and creatively designed with considered detailing, produced to be accessible to all.

Meet the Makers

The brand is led by two of the UK's most dynamic lighting designers, Scarlett Hampton and Niki Wright – who, between them, boast over two decades of experience designing, developing, and manufacturing best-selling products for the British high street. lights&lamps fuses Hampton's flair for materials, shape and texture with Wright's technical expertise and design credentials. The pair offer something completely new and unique to the market: customisable designs artfully utilizing high-quality, organic materials of all colours, textures and finishes to suit an array of interior styles.

lights&lamps

Introducing lights&lamps' collection of contemporary yet elegant table lamps, ceiling pendants, floor lamps and wall lights prioritising warming materials such as aged brass, bronze and smoked wood.

Timeless in appearance, their designs embody rich and rustic details that lend depth and dimension to any interior. The tones and textures of the collections pair comfortably with almost any other design scheme. They not only contrast but also compliment softer fabrics and matt finishes, also sitting comfortably against natural woods and coloured marbles.

lights&lamps x Reena Simon

Introducing lights&lamps' collaboration with lifestyle creator, Reena Simon - an edit of Scandinavian-inspired lighting designs. The considered collection features 12 pieces, including wall lights, floor lamps, table lamps and pendants, in varying sizes, proportions, materials and forms.

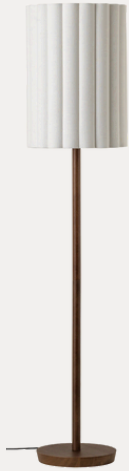

Fusing lights&lamps' use of minimal design and exploration of materials with Reena's passion for Scandinavian architecture, interiors and an understanding of their ability to enhance sensibilities, has resulted in a capsule edit of designed lighting solutions that are versatile throughout the home.
