PROPRIETARY DATA

All data in this manual is proprietary and may not be disclosed, used or duplicated, for procurement or manufacturing purposes, without prior written permission by **VERSITRON**.

VERSITRON LIFETIME WARRANTY

All VERSITRON products are covered by a **Lifetime Warranty** against defects in materials and workmanship. This coverage is applicable to the original purchaser and is not transferable.

We repair, or at our option, replace parts/products that, during normal usage and operation, are proven to be defective during the time you own the products, provided that said products and parts are still manufactured and/or available. Such repair/replacement is subsequent to receipt of your product at our facility and our diagnostic evaluation and review of the unit. Advance replacements are not provided as part of the warranty coverage.

This warranty does not cover damage to products caused by misuse, mishandling, power surges, accident, improper installation, neglect, alteration, improper maintenance, or other causes which are not normal and customary applications of the products and for which they were not intended. No other warranty is expressed or implied, and VERSITRON is not liable for direct, indirect, incidental or consequential damages or losses.

In the unlikely event a warranty issue should arise, simply contact us at 302-894-0699 or 1-800-537-2296 or via email at fiberlink@versitron.com to obtain a Return Material Authorization (RMA) number, along with instructions for returning your product.

1. Overview

The **SG70660** 6-Port 10/100/1000Base Switch supports four 10/100/1000Base copper ports and two 1000Base fiber optic SFP slots. The switch is designed with a switch controller and buffer memory that allows the two media types to operate smoothly. The four RJ-45 copper ports support 10/100/1000Mbps and Half-Duplex or Full-Duplex modes, while the two fiber optic SFP slots support 1000Mbps and Full-Duplex only. With an external power unit, the **SG70660** provides excellent stability and reliability.

2. Checklist

Before installing the **SG70660**, verify that the package contains the following:

- 1. (1) **SG70660** 6-Port Switch.
- 2. (1) AC-DC Power Adapter.
- 3. This User's Manual.

Please notify VERSITRON immediately if any of the aforementioned items are missing or damaged.

3. LED Descriptions

LED	Description
10/100	Lit when TP speed is 100Mbps
100/1000	Lit when TP speed is 1000Mbps
Link/Act	Lit when TP connection is good Blinks when TP data is transmitting
SFP1	Lit when SFP1 connection is good Blinks when SFP1 data is transmitting
SFP2	Lit when SFP2 connection is good Blinks when SFP2 data is transmitting
PWR	Lit when +5V power is applied

4. Installing the SG70660 Switch

1. Install a fiber optic SFP module into one of the SFP Slots.
2. Connect the fiber optic cable from the SFP module on the **SG70660** to the fiber network.
NOTE: Confirm that the fibers are connected Transmitter to Receiver.
3. Connect a UTP cable from the TP network device to an RJ-45 port on the **SG70660**.
4. Connect the power adapter to the **SG70660** and check that the Power LED lights up. The TP Act and SFP LEDs will light when all cable connections are correct.

5. Technical Specifications

- **Standards:** IEEE 802.3z/AB 10/100/1000Base-T
1000Base-SX/LX/ZX
- **UTP Cable:** Cat.5e or Cat.6 cable up to 100m
- **Fiber Cable:** 1000SX: 50/125, 62.5/125µm multi-mode
1000LX/ZX: 8/125, 9/125µm single-mode
- **Data Transfer Rate:** RJ-45 port: 10M, 100M, 1000Mbps
SFP: 1000Mbps
- **LED Indicators:** TP 10/100, TP 100/1000, TP Link/Act, SFP1, SFP2, PWR
- **Duplex Modes:** RJ-45 port: Half/Full-Duplex auto-negotiation
SFP: Full-Duplex mode
- **Power Requirements:** Input: 100 ~ 240VAC, 50/60Hz, Output: 5VDC, 2A
- **Ambient Temperature:** 0 ~ 50°C
- **Humidity:** 5% ~ 90%
- **Dimensions:** 1.18 x 5.51 x 3.94 inches (H×W×D)

6. Available Fiber Optic SFP Modules

Model	Speed (Mbps)	Wavelength	Media	Distance	Connector	TX Power	RX Sens	Temp
GBMM	1000	850nm	MMF	62.5μ: 220m 50μ: 550m	LC	-9.5 ~ -4	< -18	0 to 70° C
