

Revolutionary
& Holistic
Management of
Ticks & Infections

Say Goodbye to

Harmful Chemicals | Acaricide-Resistant & Multi-Drugs-Resistant Ticks | Milk & Meat Contamination

EXPERIENCE THE POWER OF QUANTUM TECHNOLOGY!

A SOLUTION TO TODAY'S CHALLENGES

AAYUDH TickX is a dual-action anti-tick solution with antibacterial properties. Its innovative formula uses Quantum Technology, in combination with Colloidal Sciences and botanical extracts.

CERTIFIED AYURVEDIC
PROPRIETARY MEDICINE

Management of Acaricide-Resistant & Multi-Drug-Resistant Ticks

As per data, AAYUDH TickX is >80% efficacious against a variety of acaricide-resistance and multi-drug-resistant ticks, regardless of the tick or host species. AAYUDH TickX also reduces the viability of the eggs, thereby helping break the tick reproduction cycle. The data does not show any development of resistance by ticks to AAYUDH TickX.

Exposure to harmful chemicals

None of the many tests, trials and studies show any adverse or unwanted effects. It is gentle on the animal skin & hide, and the applicator's hands. In addition, AAYUDH TickX is readily biodegradable >99% within a month and does not bioaccumulate.

Milk & Meat Contamination

AAYUDH TickX is a dermal (external) veterinary formulation that is safe in case of accidental ingestion by the host animal. AAYUDH TickX acts on the skin & hide of the animal, does not penetrate inside the animal, washes off easily and does not leave residue. Subsequently, AAYUDH TickX can help improve the quality of milk and meat products, and promote export potential.

AAYUDH TickX has many salient features that makes it highly convenient and desirable!

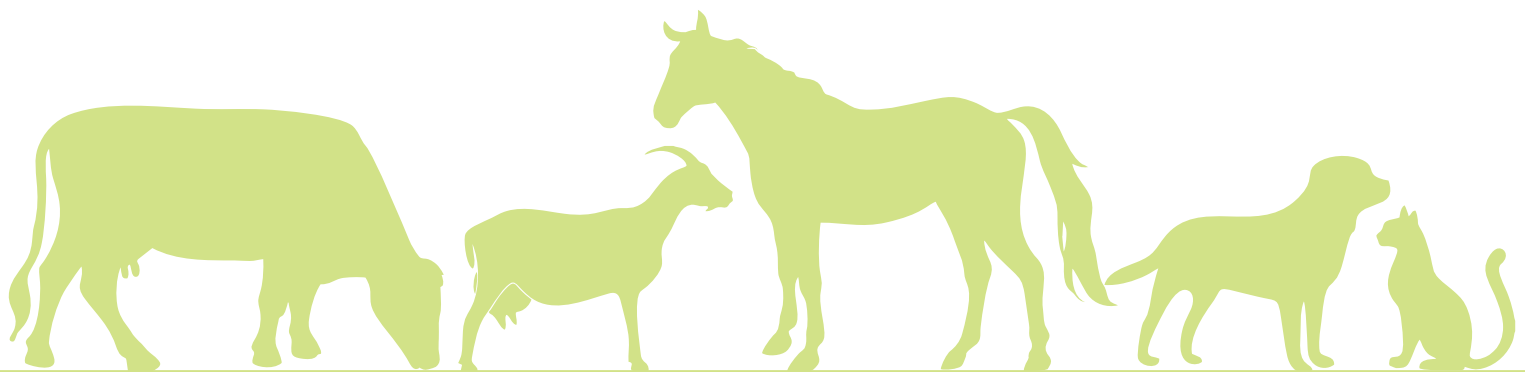

- Antibiotic substitute
- Poison-free
- Non-irritating
- Skin safe
- Non-genotoxic
- Non-fuming
- Non-carcinogenic
- Non-flammable
- Non-mutagenic
- Non-toxic
- No V.O.C.s
- Environmentally friendly
- Readily biodegradable
- Food-grade
- Safe upon accidental ingestion
- Easy to use

DUAL ACTION

Tick Elimination

Antibacterial Properties

- ◆ Effective on all species of ticks (incl. acaricide & multi-drug resistant species)
- ◆ Not host specific (effective on all animals) ◆ Works on all stages of ticks
- ◆ Helps with dermal infections ◆ Gentle on the host animal skin/hide
- ◆ Fast-acting ◆ No known side effects ◆ No known contraindications

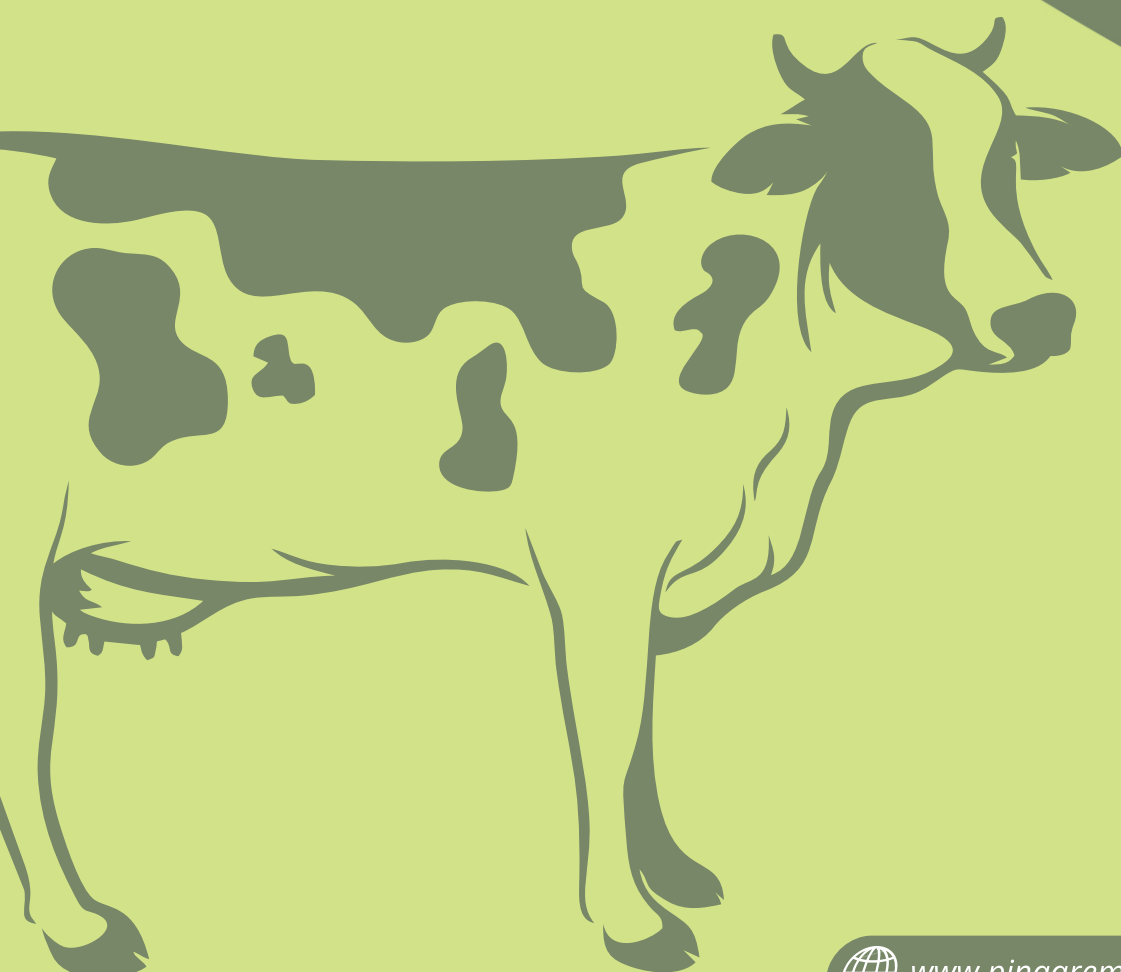

Easy to Use

Concentrate

Mix 50mL. of AAYUDH TickX in 400mL. of water. Sponge this solution, in the opposite direction of hair, on the animal's tick infected and wounded areas. Do not wash the animal for 3-4 days after application. For heavier infection, reapply after 5 days. The solution can also be liberally sprayed in the animal's living area for better results. In case of tick infection, brush the animal 3-4 days after application.

ON-THE-SPOT!

Simply spray the solution on the animal's tick infected and wounded areas. Do not wash the animal for 3-4 days after application. For heavier infection, reapply after 5 days. The solution can also be liberally sprayed in the animal's living area for better results. In case of tick infection, brush the animal 3-4 days after application.
