

Agro Clean[®]
GREEN CROP PROTECTOR

PATENTED
NANO technology based
POISON-FREE &
CERTIFIED ORGANIC
solution to protect crops from
harmful insects & infections

PINAQ
REMEDIES

BRIEF OF THE PRODUCT

Agro Clean is a broad-spectrum organic crop protector. Agro Clean selectively & effectively protects the plants from harmful insects, sucking pests, fungal infections & bacterial infections. Agro Clean does **not** harm pollinators, predator pests, humans, plants & natural enemies. Agro Clean's powerful **efficacy** and **selectivity** arises from:

1. Its unbelievably small nano size (Quantum Electro-Mechanical Physics)
2. It is made from plants and applied to plants (Ayurvedic Sciences)

Agro Clean®

protects plants from many pests, for example:

Mites

Mealy Bugs

Ear-Cutting Caterpillar
(Fall Armyworms)

Swarming Caterpillar

Thrips

Powdery Mildew

Downy Mildew

Anthracnose

Black Rot

Black Thrips

Red Mites
(Clover Mites)

Alternaria

Blight

Fruit Borer

Bacteria Leaf Spot

Grey Mould

Leaf Miners

Aphids

Fruit Flies

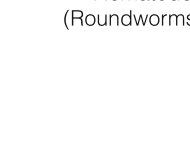

Canker

Sooty Mould

Nematodes
(Roundworms)

Leafhoppers

Cutworms

Wilt

Whiteflies

Rice Blast

Jassids

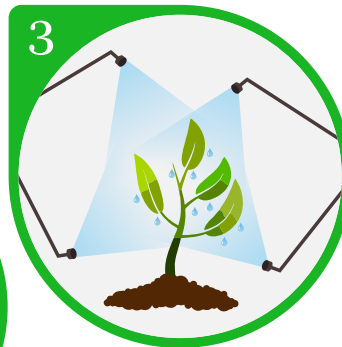

METHOD OF APPLICATION

Mix 3mL of Agro Clean per 1L of non-chlorinated water.

Using a regular foliar spray or a power spray, liberally spray the crops/plants with the mixture.

Ensure that the crops/plants are thoroughly soaked (i.e. from the above and below) as Agro Clean is a Contact Crop Protector.

Repeat this application every 2 weeks. In case of heavy infestations, repeat this application every week.

For best results, mix a fresh batch every time, just prior to use.

Avoid spraying during the flowering stage and do not spray directly on flowers.

Agro Clean can be mixed with other pesticides and non-ionic spreaders.

PRODUCT BENEFITS

- 💧 Does **not** contain any volatile organic compounds that may cause user (farmer/sprayer) any harm
- 💧 Non- toxic
- 💧 Readily bio-degradable (zero residue)
- 💧 Pesticide residue free
- 💧 Non-carcinogenic
- 💧 Environment friendly
- 💧 Non-flammable
- 💧 Does **not** contain irritating fumes or odour
 - ~ Very safe for the farmers and sprayers
- 💧 Non-mutagenic
- 💧 Non-genotoxic
- 💧 Very safe and bio-compatible
- 💧 Herbal and Certified Organic

- 💧 Mixes well with non-ionic spreaders
 - ~ Ideally, use an organic silicon-based spreader
- 💧 Cost saving
- 💧 Contains ingredients that are:
 - ~ GRAS (Generally Regarded As Safe)
 - ~ EAFUS (Everything Added to Food in the USA)
 - ~ NOAEL (No Observed Adverse Effect Level)
