

Speedstar Pro™

SEMI-AUTOMATIC CD / DVD WRAPPER

FEATURES:

- Easy operation
- Manual / Semiautomatic
- Low maintenance
- Supports Jewel case
- Supports DVD Box
- Low running costs

Save time and money with the cellophane wrapper of the Speedstar Series. It's the fastest machine in its class and is the only machine in this size which supports both, CD Jewel Case and DVD Box.

This makes it the most cost effective desktop solution for professional CD/DVD wrapping. The results can easily compete with those of the big industrial units. All SpeedStar models support Jewel Cases and DVD Boxes (Amaray-Format). To change the format it is only necessary to replace the polypropylene roll. No mechanical adjusting is needed.

Speedstar Pro™
