

MORE Dr. Suzy's Tips for I CAN PLAY THAT! THE TEA PARTY

I Can Play That! The Tea Party targets

sequencing, temporal concepts, pretend play, 2-3 word phrases, reading fluency, reader's theater/role play and more.

Here are some ideas for therapy contexts for SLPs - online and off

1. Download (or use) the sequencing cards to recall/retell the story: (Break into two different events)
2. Emphasize the temporal words: first, next, and then, last.
3. Use the template provided. Cut out small pictures. Move into the correct space. A blank template is also provided to extend this activity to other stories and events.
NOTE, download free interactive Power Point slide for teletherapy from our website. www.dynamic-resources.net
(Navigate to product page for I Can Play That)
4. Use picture cards to create phrases (i.e., "girl pours tea"). Pair with sign as appropriate.
5. Act out the tea party (use props if possible) while you sing it together (you can do this via teletherapy - child selects own toys to act out a tea party.)
6. Check out our pinterest page for more extension activities @ DynResources
