how to Make an Origami Butterfly

Origami Butterfly #1

1. Fold a square paper diagonally
2. Fold again along the middle
3. Fold another time in same way
4. Open the first fold
5. Open the next fold
6. Open another fold
7. Unfold entirely showing the creases
8. Note the red dots, bring those sides together
9. Crease the fold properly
10. Fold the right upper layer along middle
11. Bring it point-to-point with the top
12. Do the same with the left upper layer
13. Make it meet the folded right flap at the top
14. Flip the paper horizontally
15. Roll around a finger along the dotted line (don't fold)
16. Fold the top layer over the straight edge (hold with thumb)
17. Flip the structure again
18. Fold along the crease in the middle
19. Unfold it again
20. You have a butterfly
