

NCTF and Vivace RF needling

Please read carefully and understand all information provided in this post care guide.

- Maintain the cleanliness of the treated area and refrain from unnecessary touching.
- Adhere to the post-treatment guidelines given by your healthcare professional.
- Apply any post-treatment products prescribed or recommended, like healing ointments or serums.
- Shield the treated area from direct sunlight and use high SPF sunscreen to safeguard against harmful UV rays.
- Avoid applying makeup or other cosmetics to the treated area for a minimum of 24 hours.
- Refrain from intense physical activities and excessive sweating for a few days following the procedure.
- Do not swim in chlorinated pools or use hot tubs for a few days.
- Gently cleanse the treated area with a mild, non-irritating cleanser and pat it dry.
- Regularly moisturize the treated area to maintain hydration and support the healing process.

If you experience any unusual or concerning symptoms, such as persistent redness, swelling, or signs of infection, reach out to your healthcare professional for guidance.
