**Let's create
playful spaces**

Montana

It's time to

work

—

It's a new era

Our idea of what qualifies as a work space has been through quite the roller coaster. Words like home office, physical office, online classes, social distancing, and working remote snuck their way into vocabularies all over the world, as we collectively adapted to brand new ways.

Today, we've learned that we can work, lead, study or teach from pretty much anywhere, and our primary needs have changed from 'a desk and a chair' to simply having a reliable wi-fi connection. This is a great privilege regarding freedom of choice and many have experienced an improved work-life balance, but when it comes to creativity, joy, and unity, spending 8 hours working from one's kitchen table isn't much of a 'playful space', is it?

At Montana, we're experts on interior design and the effect of colours. Since 1982, our family-owned business has brought high-quality furniture and colours into private homes all over the world as well as large cooperate offices, universities, executive board rooms, restaurants, lobbies, and concert halls.

Let's explore some playful spaces.

Let's catch up

Meeting your colleagues over lunch is one of the great benefits of working at the corporate office – and not from home.

Where else to get all the updates on everyone's home lives, their new favourite TV show or the funny sequel about their neighbour's weird cat?

Montana offers a wide range of matching, high-quality interior products. Flexible, multi-usage solutions that can be combined in a multitude of ways between sizes, styles, materials and colours.

Create small spaces for 2-4 people or invite everyone to join in at the long tables. Adding space dividers and smart storage solutions on casters will give you a fully flexible room – quickly made ready for anything from canteen to conference.

2022/2023

Table for two?
— or four, five, or twenty?

Furnish the café or canteen with foldable and stackable furniture. Pull out a bar stool for a conversation over a cup of coffee. Or sit down for a luxurious lunch break.

Sit well, think well

Create a café or canteen that transforms the daily breaks into a calm and relaxed environment for employees and colleagues to connect. Choose furniture that encourages small-talk and reinvigorates relations.

Save space
— with stackable icons

After nearly 60 years on wheels, it was time to renew the Kevi chair. The sketches for the chair had been in Jørgen Rasmussen's archives for years and in 2016, it became reality. Kevi with four legs is a re-make of the classic swivel chair from 1958.

Verner Panton designed the Panton One chair in 1955. Montana relaunched the chair in 2003. Since then, Montana has developed a whole family of Panton One chairs, all based on Verner Panton's ideas and designs. →

Panton One chair in Paper Nature string with Beige frame

Let's change — it up

Stack it, fold it or roll it away. When it comes to furnishing the modern office, flexibility is key.

Over the past years, it has become a bit of a rare event that all employees work at the same office at the same time. As a direct consequence, some companies have decided to scale down to fewer square metres, save on rent and maintenance expenses, and start utilising the space they've got as intelligently as possible.

Choose stackable chairs, foldable tables, and clever storage systems on casters to create a multifunctional room, where you can host anything from daily lunches to quarterly kick-off's, casual Friday drinks or big corporate events.

CO16 system with plant box in Azure with magazine shelf in Pomelo and casters in Camomile

Stand, sit, or relax
— clever solutions for the flexible work space

Furniture build to breed ambitions and creative thinking. Spaces transformed into the right atmosphere make a daily difference and boost productivity.

Cosy nooks for the small breaks

Offer a variety of different seating for relaxation, socialising, and spaces to catch up and have informal meetings.

HiLow 2 in laminate: Cumin with Beige frame // Kevi 2534U in Re-wool upholstery

Let's go — to work

Today, 'going to work' can mean anything from transporting yourself to a local café or an office building to simply stepping into your spare bedroom.

As a result, hybrid work, where employees switch between home office and corporate office, has become increasingly popular. So, how do you best make sure to cherish your team when they're working at the office? Let's explore.

Montana's wide range of flexible products can spark creativity in any workspace. Use colours and contrasts to create a vibrant and energetic ambience, go for comfort with proper chairs and height-adjustable desks, set up places for quick informal meetings, and remember the small nooks and private places, where people can go to clear their mind – or to simply work in a quieter setting.

Spark creativity
— with bright, bold colours, and superb comfort

Encourage the flexibility between impromptu collaboration and individual concentration – the freedom to both sit and stand is an energiser throughout the day. The ability to make adjustments to the workspace cultivates freedom and the quality of work.

Let's lead — by example

The spatial design of an organisation's executive level should make visitors feel welcome – and ideally, also a bit wowed.

This is the place to show your values as a company, as leaders, and to set the tone for important meetings. So, keep the coffee ready – and furnish your meeting rooms with sustainable, eco-certified, high quality furniture. Choose the best of tables, comfortable chairs, beautiful rugs, and elegant storage units for HiFi systems and AV equipment.

Go for clever storage solutions for the executive offices, so keeping it tidy isn't complicated, and prioritise height-adjustable desks with cable rows for wires and up/down adjustments neatly placed in the table top. And finally, rethink the 'standard' executive office and choose colours, styles, and art pieces that express each executive's leadership style: bold and experimental, wise and experienced, or positive and creative?

Montana 12mm system in Oregano

Clean lines, clean mind

Create an impressive executive office with the right balance of personality and professionalism ready to take on any task or conversation.

Superb details

Height-adjustable office chair and table in sophisticated and elegant finishes joining comfort and high-end aesthetics in its design.

2022/2023

Let's make good decisions

The real-life meeting has returned and just like in the good old days, we're back to having to act professional and civilised for – sometimes – many hours in a row.

Attendees can't just mute their mics and turn off the video to stretch their legs or grab a coffee in the kitchen. So, comfortable chairs, clever features, proper ventilation, and a nice and welcoming ambience are essential.

Thanks to high-quality materials and an impressive longevity, Montana is a sustainable choice with a low total cost of ownership. The wide range of matching interior products can be used for many years and for many different purposes, colourful changes and additions can be made as the years go by.

For colourful brainstorming
— or quiet little breaks

Marée chair in Flint with Steelcut Trio 3 upholstery //
Moser table in linoleum: Burgundy with Rosehip frame

Boost productivity through chromatic meeting spaces.
With a vast range of colours and many options you can
create exactly the ambience and character you aim for.

Let's make a first impression

Let's dress to impress. The entrance area is your first chance of making a good impression.

Do guests feel welcome? Do employees feel glad they showed up at the office, today? Will clients feel confident in your professionalism?

Make sure you're set up to make anyone feel welcome, guide the first-time visitors with small nudges or signs, and choose smart storage solutions for the reception desk, so the place can appear tidy throughout the day.

The entrance is a great chance to express the company's values and personality through design and colour choices. And you can even turn waiting into a nice thing: create a functional and calm space with lounge furniture, wardrobe, magazines, fresh plants, eye catching design, and free guest Wi-Fi.

Pantonova in Black Red with Velvet Sky cushion

Pantonova in Black Red with Sky Velvet cushions

Take a seat, please
— we'll be right with you

Create a lounge and reception that sets the right
ambience. Welcome visitors, guests, and employees
with an impressive impact.

An iconic Danish design

Combine the industrial and elegant Panton Wire system with the curves of the Pantonova.

Safe for you — safe for the environment

At Montana, we take our environmental responsibilities seriously. Over 25 years ago, we introduced our own set of environmental accounts in consultation with The Danish Environmental Protection Agency.

In 2019, Montana was awarded the official EU Ecolabel and is thereby among the very first Danish furniture manufacturers to achieve it. When developing EU Ecolabel criteria for products, the focus is on the product's entire lifecycle, from raw material extraction to production, distribution and disposal.

The EU Ecolabel guarantees:

- that a high percentage of wood is from legal sustainably managed forests
- tough restrictions on the use of environmentally hazardous substances
- tough restrictions on the use of toxic substances
- that wood has low emissions of the allergenic substance formaldehyde
- a 5-year product guarantee (Montana has opted to retain its 10-year product guarantee)

A photograph of a desk setup. On the left, a white USB charger with a cable is plugged into a circular white USB port. To the right, an hourglass with green sand is placed on a light-colored wooden desk. The hourglass is tilted, and the sand is flowing from the top bulb to the bottom bulb. The background is a plain, light-colored wall.

Let's walk —

the talk

Danish design — Danish manufacturing

The vast majority of our products are developed and made in Denmark. We have more than 180 employees under one roof, all applying their expertise in processing, lacquering and assembly. This ensures that our high standards of quality are maintained and that everything is produced under conditions that respect our workforce and the world around us.

Meet our designers

Montana Furniture has over the years entered collaborations with both Danish and international designers to launch new and relaunch design icons.

Peter Lassen

GOOD DESIGN DEMANDS HONESTY AND RESPECT

In 1982, Peter J. Lassen founded the family company, Montana Furniture. Montana is based on Lassen's philosophy; that every one of us has a need for freedom to create our own personal spaces.

Jørgen Rasmussen

RETHINKING FUNCTIONALITY AND
OPTIMISING A DESIGN

He graduated from the Royal Danish Academy of Fine Arts in 1955 and in 1957, Jørgen and his twin brother, Ib, started their own studio with a focus on single-family houses. In 1958, he designed the Kevi chair.

Margrethe Odgaard

COLOUR ALCHEMIST –
COLOURS ARE LIGHT. AND LIGHT IS LIFE

Margrethe Odgaard graduated in 2005 from The Royal Danish Academy of Fine Arts, School of Design in Copenhagen. In 2019, Montana launched a new colour palette developed in collaboration with colour expert Margrethe Odgaard.

Verner Panton

YOU SIT BETTER ON A COLOUR YOU LIKE

Verner Panton is considered one of Denmark's most influential 20th-century furniture and interior designers, not to mention one of the most avant-gardes. During his career, he created innovative and futuristic designs in a variety of materials and in vibrant, exotic colours.

Jakob Wagner

UNVEAL THE ESSENTIAL – QUALITY, FORM AND FUNCTION

Jakob Wagner is a Danish award-winning designer. He has received numerous awards, including six iF Awards, three Red Dot Awards, Bundespreis and Designer of the Year.

Erik Magnussen

SIMPLICITY AND FUNCTIONALITY

Erik Magnussen graduated as a ceramicist in 1960 and started working for highly esteemed Bing & Grøndahl as an industrial designer. First and foremost, design should be functional and durable. This is indeed the case for the Chairik series designed in 1996.

Jens Martin Skibsted

THE WORLD NEEDS MORE SUSTAINABLE CHAIRS

Jens Martin Skibsted, born in 1970, is a multiple award-winning designer, Global Partner at Manyone, and founder of the bicycle company Biomega and KiBiSi.

Kasper Mose

SPACE, PROPORTIONS, LIGHT AND MATERIALS

Kasper's work is a fusion of tradition and renewal, with a curious and experimental approach to seek out new possibilities of space, proportion, light and materials. Kasper has gained solid experience from working at leading Danish architectural firms such as Arkitema and Friis & Moltke Architects.

Product —

overview

KEVI

— the iconic office chair

The Kevi chair has set the scene across the world from universities in the UK to primary schools in Denmark and design offices in Japan. After 60 years on the market, the chair is still as relevant today as it was in 1958.

Design by Jørgen Rasmussen

SPECIFICATIONS

The original Kevi chair from 1958 was a swivel chair on casters. The Kevi chair family comprises models on casters in 4 heights and various models. The four-legged Kevi chair with seat and back comprises dining, counter, bar and lounge models – all stackable, except 2052 and 2053. The Kevi stools come with casters and without casters in 3 heights. Kevi tables are available in Ø90 cm in H 72 cm and H 36 cm.

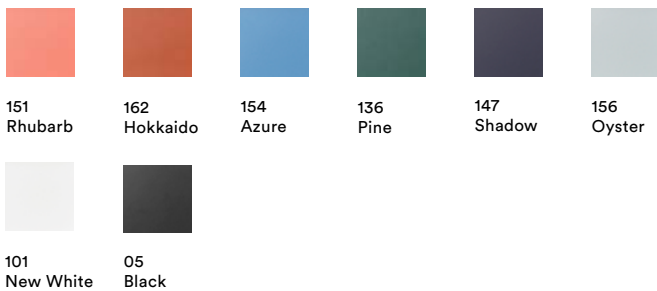

MATERIALS & COLOURS

The Kevi chairs on casters have a 5-star base in aluminium. Seat/back are available in Nature Oak and 8 lazure colours: Black, Pine, New White, Oyster, Shadow, Azure, Hokkaido, Rhubarb. Caps in Black or Aluminium.

The Kevi Air version is made in polypropylene in the colours Black or White.

The Kevi 2070 is made in compression moulded veneer legs, seat and back in two veneer finishes: Nature Oak and Black Oak.

The Kevi 4-leg series has legs in polished chrome or powder coated in 8 colours same as seat and back. Seat and back are available in Nature Oak and 8 lazure colours: Rhubarb, Hokkaido, Azure, Pine, Shadow, Oyster, New White, Black.

ENVIRONMENT

Kevi 2060 is EU Ecolabel certified.

COMPONENTS

- Linking device
- Stacking shield
- Trolley
- Gliders with felt
- Chair suspension
- Arm rest
- Foot ring

UPHOLSTERY

The Kevi series is available with seat and/or back, inner side and full upholstery in fabric and leather. The stools: 2051, 2052 and 2053 do not have upholstery as an option.

MARÉE

— a chair family in recycled plastic

The characteristics of Marée are the refined and rational approach that manifests itself in the straight lines and lack of superfluous details. Marée, meaning tide in French, has a seat made in 100% recycled plastic and is available in eight curated Montana colours, with legs in both chrome and powder coated finishes.

Design by Jens Martin Skibsted

SPECIFICATIONS

The Marée chair series comes many models – dining, counter, and bar – and as meeting chair with 4-star base, 5-star swivel base with gas lift and tilt with foot in recycled plastic Ø70 cm or black aluminium Ø64 cm. The chairs have plastic gliders. Marée has a max. load of 150 kg. The dining chair version is available in an outdoor version.

MATERIALS & COLOURS

The frame is made of polished chrome steel or powder coated steel. The shell is cast in 100% molded recycled plastic PP with 15% glass fiber. Colours available on shell and frame: Oat, Mushroom, Amber, Beetroot, Flint, Parsley, Anthracite, Black.

MODELS

ENVIRONMENT

Marée (without upholstery) has achieved the EU Ecolabel. The EU Ecolabel takes the whole product life cycle into account – from the extraction of the raw materials, to production right through to the recycling bin.

UPHOLSTERY

Marée is available with seat, inner side or fully upholstered in fabric or leather.

Marée in Amber, Parsley, Flint & Beetroot

CHAIRIK

— stackable comfort

Chairik equals stackable comfort. With extraordinary stacking performance, up to 45 chairs on each trolley, Chairik is the perfect space saver when stored. Chairik is made for audiences that come and go and, when stacked, you can store up to 1000 Chairik chairs in just 14 square meters.

Design by Erik Magnussen

SPECIFICATIONS

Chairik is available in two different sizes and various heights to suit the people, the situation, and the location. Chairik is versatile and available with different bases – four-legged, sled-base and 5-star swivel base – for different purposes. If you want armrests, simply choose the one you like the best. Max. load of 150 kg.

MATERIALS & COLOURS

The Chairik 4-leg frame is 16 mm tube and the sled base is 12 mm tube, polished chrome or powder coated in Black. Shell in compression molded plywood and plastic, Melamine, or veneer.

UPHOLSTERY

Chairik can be upholstered in fabric or leather. The chair is also available with seat upholstery, inner side upholstery or fully upholstered in two different thicknesses. Also available with on/off seat upholstery for ultimate flexibility.

With the removable on/off seat upholstery attached to magnets you can easily change the look of the chair from an unupholstered to an upholstered chair.

AVENY-T

— a young chair for a broad audience

The Aveny-T chair is the perfect answer to a demanding brief with its lightness, expressive lines, and modern combination of materials – recycled plastic in a terrazzo composite-like look in combination with a black powder coated sled-shaped frame.

Design by Anders Engholm

SPECIFICATIONS

The Aveny-T Chair has a simple and elegant black powder coated frame with a seat and back in recycled plastic developed by A Circular Design Studio. The back is designed with a small bend, which forms an armrest when sitting on the chair sideways. The measures are H 77.5 x SH 47 x B 49 x D 52 cm. Aveny-T is stackable and stacks 10 on the floor and 20 on a trolley. The chair is only available for indoor use, and can take a max. load of 110 kg.

MATERIALS & COLOURS

The Aveny-T has a sledbase in Ø11 black powder coated steel. The frame is equipped with gliders. The back and seat are made in 100% recycled plastic collected from household waste, beaches or companies locally in Denmark – only available in one finish/colour: Circular Multicolour. Plastic: LDPE (low density polyethylene) and HDPE (high density polyethylene).

COMPONENTS

Trolley for 20 chairs

MODEL

AVENY-T

STACKED

Photo: Enok Holsegaard

Aveny-T was originally designed for the Aveny-T Theatre in Copenhagen. A theatre with a young audience as its target group, naturally demands a chair that is both functional, minimalistic, and full of character.

PANTON ONE

— a handwoven chair family

The Pantan One chair family, designed in 1958, is a stackable, colourful darling that allow cord and frame colour to be combined as you wish. The family comprises dining, bar, counter, and lounge versions in both indoor and outdoor versions.

Design by Verner Pantan

SPECIFICATIONS

The seats of the Pantan One chairs are hand-woven using polyurethane cord on a core of nylon, available in 8 different colours or in paper weave in 2 colours. With a stainless steel frame and polyurethane cords, the chairs can be used indoors and out. With powder coated frame, chrome frame or paper weave the chair is not suitable for outdoor use. The chair stacks 10 on trolley and floor. Max. load: 150 kg. The lounge chair is not available in paper string or chrome frame.

ENVIRONMENT

The Pantan One chair series is EU Ecolabel certified. The paper string is FSC-certified.

MATERIALS & COLOURS

The frame is available in stainless steel (for outdoor), polished chrome and powder coated in the colours: Beige, Silk Grey, Black Red and Black. The seat is handwoven in FSC-certified paper string (only indoor use) in the colours: Paper Nature and Paper Black – or in polyurethane cord with a nylon core (for indoor and outdoor) in the colours: Duke, Holmes, Clark, Vincent, Carmen, Marylinn, Marcel, Scarlett.

COMPONENTS

- Gliding feet
- Felt pads
- Trolley

PANTONOVA

— a modular seating system

The Pantonova System was designed by Verner Panton in 1971 and consist of three different seating modules: Linear, Concave and Convex. The sculptural chairs can be used alone or combined in various organic shapes like a circle, a wave or an S-shape.

Design by Verner Panton

SPECIFICATIONS

The Pantonova seating modules are available in 3 versions: Linear, concave and convex, which can be assembled in different formations using connectors and assembly clips. The chairs are fitted with plastic feet. The seating modules can take a max. load of 130 kg.

MATERIALS & COLOURS

The frame is made from 5 mm wire available in Chrome, powder coated Black Red or Stainless steel for outdoor use.

Cushions are available in the fabrics Harald and Hallingdal 65 from Kvadrat, and ULTRA leather from Sørensen Leather. The cushions are 3.5 cm thick and are available in 8 colours.

ENVIRONMENT

The Pantonova seating system is EU Ecolabel certified.

SZENE

— auditorium chair

The Szene chair is originally designed for the auditorium in Axel Towers, located next to the Tivoli Gardens in central Copenhagen. The idea was to create a chair, which was classic, but at the same time with an organic expression to suit the shape of the auditorium and the rest of the buildings.

Design by Lundgaard & Tranberg Architects

SPECIFICATIONS

The Szene auditorium chair are mounted to a wall or a podium. Szene is available in a wall mounted auditorium chair version or with cantilever frame. The chair measures H 56 x W 58 x D 43-61.

MATERIALS & COLOURS

The shell is made in compression moulded veneer. The wall bracket in steel, powder coated black. The seat is moulded foam. The Szene cantilever frame is made in 25 mm tube, in polished chrome or powder coated in black.

UPHOLSTERY

Available with seat upholstery, inner side upholstery and fully upholstered in fabric or leather.

Photo: Lea Jessen

A classic chair
— with an organic expression

In close collaboration with Lundgaard & Tranberg Architects, the Szene chair was developed as an auditorium chair for the auditorium in Axel Towers. With its 5 round towers, Axel Towers is located next to Tivoli Gardens in central Copenhagen.

MOSER TABLE

— versatile folding table

Moser is a versatile table series that comes in many sizes, both round and rectangular in a range of heights, colours, and finishes. The Moser Table is available with both straight gables and angled gables – and some sizes come with a fold function that makes it the perfect table choice for multi-functional spaces.

Design by Kasper Mose

SPECIFICATIONS

The Moser Table comes in 10 rectangular sizes and 3 heights (dining H 74 cm, counter H 90 cm and bar H 105 cm) choose either angled or straight gable. The Moser table with round table top comes in Ø90, and Ø120. Both in H 74 cm and with the angled gable. All of the Moser Tables are shipped knock down. The tables fold by tipping the table upright and releasing the handle that locks the frame. When folded Moser fits 7 tables on a trolley.

MATERIALS & COLOURS

The frame is available as standard powder coated in Black, Snow, Beige, Black Red, Shadow, Pine or Rosehip. The tabletop is available in linoleum and laminate.

COMPONENTS

JW TABLE

— a table that exudes lightness

The JW Table has a light frame resembling origami that carries the top with a graceful elegance. The table is available in 8 standard sizes, both round and rectangular – the table is suitable for meeting or conference rooms.

Design by Jakob Wagner

SPECIFICATIONS

The JW Table comes with a rectangular top in a choice of 4 sizes: 100 × 200 cm, 100 × 240 cm, 120 × 240 cm, and 120 × 320 cm. In the round version the table is available in Ø120, Ø140, Ø160, and Ø180 cm. The table can carry a max. load of 80 kg, evenly distributed on the tabletop.

MATERIALS & COLOURS

The frame comes as standard powder coated in Black, Snow, Beige, Black Red, Shadow, Pine or Rosehip or, at an additional charge, in polished aluminium.

The JW tabletop comes in linoleum, laminate, nano laminate, veneer or solid wood. Laminate, linoleum and veneer tops are 22 mm thick, and the solid wood tops are 30 mm thick. Please notice that not all table sizes come in all finishes. The height of the laminate, linoleum and veneer tabletop is 73 cm. The table with solid wood panels measures 74 cm in height.

HILOW 2

— height-adjustable table

HiLow 2 is an electric height-adjustable table that can be adjusted for both seated and standing work. The edge profile of the tabletop is the classic milled Montana profile and the depth allows plenty of room for a keyboard, screen, support for the arms, and good visual distance.

Design by Peter J. Lassen & Joakim Lassen

SPECIFICATIONS

The HiLow 2 series is a versatile height-adjustable table that comes in 8 standard table sizes and with 4 different frame types (fix round, DL5, DL6, and DL11). HiLow Double is available in 4 standard sizes. HiLow Double comes with tabletops in widths of 180, 160, and 140 cm – all in the depth of 80 cm. The height-adjustment of the table ranges from 61.9 cm to 125.4 cm. The HiLow can bear a max. load of 120 kg evenly distributed on the surface.

MATERIALS & COLOURS

HiLow/HiLow Double frames are available in aluminium as standard, or powder coated in Black or Snow. The HiLow 2 DL11 frame is also available powder coated in Beige, Black Red, Shadow, Pine, and in polished aluminium at an additional charge.

HiLow tabletops are supplied in micro laminate, laminate, nano laminate, linoleum and veneer. Standard tabletops have edges in painted MDF to match the surface. All HiLow tabletops are manufactured with an MDF core. Veneer and laminate are 20 mm thick; linoleum has a thickness of 21 mm.

EXAMPLES

Werkhalle Ravensburg
— creative working hub

An old factory facility turned into an open and multi-functional space with workstations for creatives. Montana has delivered HiLow 2 tables for the workstations.

**POUL SCHMITH/
KAMMERADVOKATEN,
DENMARK**

HILOW 3

— functional workstation

The HiLow 3 table has a clean design and is a versatile table for office environments or in the home office. The tabletop has Montana's classic rounded profile – the table comes in many sizes and finishes.

Design by Peter J. Lassen & Joakim Lassen

SPECIFICATIONS

The HiLow 3 frame has a square leg profile and is available in 7 sizes – W 70, 80 and 90 cm and L 120, 140, 160, and 180 cm. The foot is made of polyamide PA6 30% glass (recycled material). The tabletop has Montana's classic rounded profile – however, the smallest size has straight ends. HiLow 3 can bear a load of up to 120 kg evenly distributed on the tabletop.

MATERIALS & COLOURS

The frame is made of powder coated steel in colours Black and Snow and the foot is moulded in PA6 plastic. Frames and feet come as standard in the colour Aluminium.

The tabletops come as standard with lacquered MDF edges that match the surface – the finishes available are micro laminate, laminate, nano laminate, linoleum and veneer.

ENVIRONMENT

The HiLow Table series is EU Ecolabel certified.

COMPONENTS

- Cable trays
- Wire ducting
- Lamp Holder
- Power dots
- Quickbox
- Charger
- Cable stockings
- Control switches
- Plug well / plug panels
- Paper basket
- Pen tray
- CPU-holder
- Privacy screens

EXAMPLE

HILOW 3

Personalise your
— office desk

Choose from a wide selection of desk components, such as cable grommet, wireless mobile charger, tablet socket, lamp holder, privacy panels, mounted waste paper basket and pen tray.

HILOW CONFERENCE

– for standing and seated meetings

The HiLow Conference meeting tables are available with height-adjustment function and can be used as conference, meeting, or workshop tables. Plug wells enables attendees to connect to power. The frame is designed to free up legroom everywhere.

Design by Peter J. Lassen & Joakim Lassen

SPECIFICATIONS

The conference tables are available with electric height-adjustment and with manual fix adjustment. Tabletops come as standard with edges in lacquered MDF to match the surface. The table is available in W 120 cm and L 400, 320, 240, and 200 cm.

MATERIALS & COLOURS

The frame is supplied powder coated in the colour Aluminum as standard. The frame is also available in the colours Snow or Black at no additional charge, and the colours Beige and Black Red are available for frame with DL11 columns at an additional charge. Chrome leg profiles are available at an additional charge.

The tabletops are available in laminate, linoleum, veneer and nano laminate. The tabletops come as standard with edges in lacquered MDF to match the surface.

ENVIRONMENT

The HiLow Table series is EU Ecolabel certified.

COMPONENTS

- Cable trays
- Wire ducting
- Lamp Holder
- Power dots
- Quickbox
- Charger

SHL TABLE

— a height-adjustable executive desk

The SHL Table is an elegant height-adjustable desk with end gables that give it a solid, yet sophisticated look. The table is perfect for the executive office or as a reception desk and can be outfitted with various components.

Design by SHL design

SPECIFICATIONS

The SHL Table is available in 2 sizes, D 90 x W 181.7 cm and D 90 x W 201.7 cm, with an electric height-adjusting function that can be adjusted for both seated and standing work. The depth of the tabletops provides plenty of room for keyboard, screen, armrest, and good viewing distance. The frames are designed to provide free leg space. The tables have electric height-adjustment with full covering from end pieces in both the highest and lowest positions. End pieces and other components are only available in Snow and Black. SHL Table is delivered with cable tray.

MATERIALS & COLOURS

End pieces and other components are only available in Snow and Black.

SHL Tabletops are available in laminate, linoleum, veneer and nano laminate. The laminate tabletops have lacquered MDF edges to match the surface. Linoleum has linoleum edges. Tabletops in Black Oak, Nature Oak or White Oak have a solid wooden edge strips in the same material.

COMPONENTS

- Cable trays
- Wire ducting
- Lamp Holder
- Power dots
- Quickbox
- Charger
- Cable stockings
- Control switches
- Plug well / plug panels
- Pen tray

EXAMPLE

SHL TABLE

An impressive desk
— for the executive office

SHL Table was designed by Schmidt Hammer Lassen Architects for Montana, in 2007. The height-adjustable desk, with its elegant gable and clean lines, is based on a manual version that the architects designed for their own office.

MULTI TABLE

– a versatile table for many contexts

The versatile and elegant Multi Tables are ideal for both café and canteen areas, for meetings and conferences, or as a work desk. The series consists of three different types of tables – Multi Table, Multi Café and Multi Speaker.

Design by Peter J. Lassen & Joakim Lassen

SPECIFICATIONS

The Multi Tables are available in 11 table sizes in lengths from 120-400 cm in H 72 cm. Multi Table has round Ø60-mm columns. The Multi Tables can carry a max. load of 100 kg evenly distributed.

The Multi Café tables are available in 9 sizes and come in two different shapes – round and square in 4 standard heights. With gas height-adjustment, the height range is 74-114 cm. Multi Café tables can carry a load of max. 20 kg.

The Multi Speaker is ideal for use in conference rooms or large teaching rooms. The lectern, with its sloping panel, enables the speaker to place a script or laptop computer at a good, standing, working height. The Multi Speaker is available in 2 fixed heights and with pneumatic height-adjustment.

MATERIALS & COLOURS

Multi Table and Multi Café tabletops are available in laminate, micro laminate, linoleum and veneer. However, micro laminate is not offered for the Multi Speaker and not all tabletop sizes come in this material. The tabletops come as standard with edges in lacquered MDF to match the surface. The leg profile is a round Ø60-mm column, which is available powder coated in the colours Aluminium, Snow, Black, Beige, Black Red, Shadow and Pine. Feet in chrome and leg profile in polished aluminium are available at an additional charge.

MONTEREY

— table, bench, high desk

Monterey is a flexible table and bench system with a chunky look and a simplistic design. Bench, counter, or standing desk – Monterey can be applied in many ways. Monterey can be outfitted with casters and cable grommet.

Design by Peter J. Lassen

SPECIFICATIONS

Monterey comes in 4 standard heights – H 45, 56, 72, and 105 cm. Monterey is also available in special heights within the range 10–110 cm at an additional charge.

Monterey in height 10–76 cm are delivered with a support rail in height 4 cm, besides Monterey length 100 and 80 cm which are delivered without rail. See illustration. The support rail is lacquered in the same colour as Monterey.

Monterey height 77–110 cm is delivered with 10 cm rail in MDF. The number of MDF rails are shown in the illustration. Monterey can carry loads up to 100 kg.

MATERIALS & COLOURS

Monterey is made in 30 mm MDF. Available in all 40 Montana lacquer colours. Support rail in steel lacquered in the same colour as the table.

ENVIRONMENT

The Monterey table and bench series is EU Ecolabel certified.

MONTANA FREE

— freestanding shelving system

The Montana Free shelving system is a new form of furniture for a new way of living. Stand-alone shelf, easy to assemble, irresistibly moveable. Add the flexible textile panels for a touch of colours and alter the transparency of the shelving as desired.

Design by Jakob Wagner

SPECIFICATIONS

The Montana Free shelving system consists of 12 standard compositions that you can choose with an optional interposed shelf. The shelves are available in 3 lengths, which define the length of the unit: one compartment measures 73.4 cm, two compartments measure 138.4 cm, and three compartments measure 203.4 cm. All shelves come in D 38 cm. Optional, vertical textile panels allow you to play with colours and expressions, create personalised screens between rooms, and alter the transparency of the shelving as desired.

MATERIALS & COLOURS

The foot and the column are powder coated metal. The foot is height adjustable and has a soft plastic sole. The shelves are made of 16 mm lacquered MDF. The Montana Free shelving system comes in New White, Black, Fjord, Beetroot, Black Jade, Masala, and Iris-Masala mix. Montana Free shelves is available in lacquer or structure lacquer. Structure lacquer is lacquer with the addition of texture beads, small beads of PE plastic which make the surface scratch resistant.

Textile panels are moulded in plastic and upholstered with Remix 2 by Kvadrat. Available in 8 different colours. Use the panels to put your personal touch to your unit. The fabric panel is also available in a sound-absorbing version with an acoustic field from Kvadrat Soft Cell in the core.

ENVIRONMENT

The series is certified with the Danish Indoor Climate label as well as the official EU Ecolabel.

COMPONENTS

Drawer
Textile panels
Bookstand

and alter the transparency of the shelving as desired.

MONTANA LOCKERS

– smart, personal storage space

Montana Lockers are smart, personal storage solutions that can be adapted to any context where personal storage is a need. Colour options, numbering, various door models, and locking systems make it possible to tailor Montana lockers to different requirements.

Design by Peter J. Lassen

SPECIFICATIONS

The Montana Lockers are personal storage space solutions that allow a lot of storage in minimal space. Lockers come in 4 standard sizes in two depths, 38.8 and 47.6 cm, in two widths, 70.4 and 104.6 cm, and two heights, 138.8 and 184.4 cm.

Mount the lockers on the wall or a plinth and choose between different locking solutions and mechanisms. The suspension rail for the lockers is reinforced and is not possible to retrofit. Plinths are available in height 7 cm and are a specially reinforced version.

MATERIALS & COLOURS

Montana Lockers are made in 16 mm MDF, partitions in 12 mm MDF. Available in all 40 Montana lacquer colours.

ENVIRONMENT

The series is certified with the Danish Indoor Climate label as well as the official EU Ecolabel.

COMPONENTS

- Key-operated lock
- Combination lock
- Electronic battery-operated lock with chip card
- Doors with mail slot
- Numbering

12 ROOMS

Royal Arena — rent a locker

Royal Arena is an iconic building in Copenhagen dedicated to entertainment. It houses 16.000 guests. Montana provided locker modules with electronic locks servicing the many Concert-goers and sport spectators of the house.

MONTANA CO16

– shelving and storage system

The Montana CO16 comprises 11 sizes basic 16 mm mdf units in two depths. The basic units can be outfitted with doors, drawers, and shelves and can be placed on casters, legs, plinths, or as wall-mounted. These modules are perfect for space dividers, sideboards, and storage.

Design by Peter J. Lassen

SPECIFICATIONS

The Montana System CO16 comprises 11 basic units in 2 depths. If you want to design your own personal combinations, the basic units can be supplemented with various CO16 components. Choose from modules with doors, drawers, or shelves. The shelving units can also be adapted to your individual preferences and needs, using additional components.

Living Things storage and plant box for CO16 is available in one size and has one compartment. The plant box is made of water-resistant MDF. At an additional price a plastic insert for the plant box can be purchased, which protects the box and can collect spilled or excess water. Living Things is available on legs or can be stacked on other modules.

MATERIALS & COLOURS

CO16 is made in 16 mm MDF. Available in all 40 Montana lacquer colours.

ENVIRONMENT

The series is certified with the Danish Indoor Climate label as well as the official EU Ecolabel.

COMPONENTS

- Doors with handles
- Drawers
- Shelves/partitions
- Magazine shelves
- Trays
- Plant boxes

MONTANA SYSTEM

— endless possibilities

Montana makes it possible for you to arrange your room the way you want it. You are free to mix and match Montana's different sizes, components, and colours as you choose. The Montana System is made of 12-mm lacquered MDF in 36 basic sizes, 4 depths, 40 colours, and 2 veneers.

Design by Peter J. Lassen

SPECIFICATIONS

A wealth of components allow you to design your own personal Montana. Start with the basic units and build your shelving from scratch, or give your pre-defined shelving unit extra functionality with a matching component. With the Montana System you can build sideboards, lowboards, and benches. Room dividers, reception desks, shelving, and bookcases and much more. The Montana System is signified by the pilot holes that are placed with a distance of 5.7 cm between them on the inner side of modules. The small pilot holes are where you attach components such as shelves and trays, drawers ect. The internal measurements of the system corresponds to the German DIN-standard.

MATERIALS & COLOURS

Montana System is made in 12 mm MDF. Available in all 40 Montana lacquer colours and two veneers.

ENVIRONMENT

The series is certified with the Danish Indoor Climate label as well as the official EU Ecolabel.

COMPONENTS

- Doors with handles
- Doors with push
- Glass doors
- Lacquered glass doors
- Shelves
- Drawers
- Square trays
- Trays

POSITIONS

CARGO

— storage and space divider

The Cargo unit is suited for creating a tranquil workspace at the individual workplace. The interior of Montana Cargo is versatile. The unit can be supplied with a lock when used for personal storage. Cargo is offered in all 40 Montana lacquer colours.

Design by Peter J. Lassen

SPECIFICATIONS

The Cargo unit is available in W 80 cm and 90 cm and H114 and 70.4 cm. The unit inside the garage has a width of 70.4 cm and is fully extendable, with soft-close extension, which combined with two casters mounted under the unit, ensures stability and makes the unit easy to move around. L/R indicates direction of extension left (L) and right (R). Right indicates that the module is placed on the user's right side, opening towards the user. Left indicates that the module is placed on the user's left side, opening towards the user. Top units are available for Cargo units. Top units come in widths 80 cm and 90 cm, in 2 heights: 24.8 cm and 36.2 cm.

MATERIALS & COLOURS

The Cargo Units are made in 16 mm MDF and comes in all of Montana's 40 water-based lacquer colours.

ENVIRONMENT

The series is certified with the Danish Indoor Climate label as well as the official EU Ecolabel.

COMPONENTS
