EXPLORER Cellular Modem

Turn your BGAN into a Wireless Access Point

COBHAM

- Custom USB LTE Dongle for the EXPLORER 510 and EXPLORER 710 BGAN terminals. Requires EXPLORER 510 Software 1.02 or later and EXPLORER 710 Software 1.06

- Simply connect the USB dongle to the USB Host port of the BGAN terminal and use a local cellular network as an alternative to BGAN

- Use your BGAN as a wireless access point for all your devices

- Requires an activated data SIM card for your local cellular provider
