- Prices are in US Dollars. Remote Satellite Systems® reserves the right to modify/change or delete plans as necessary.
- Initial monthly fees / allowances are pro-rated based upon the number of days active during the month. Final months will not be pro-rated.
- Monthly plans roll over on a month-to-month basis after the initial commitment is met. It is the customer's responsibility to request deactivation in writing.
- Annual periods are full periods and not pro-rated. Annual plans will automatically renew on an annual basis after the initial commitment is met. Changing from an annual version of a plan to a monthly version of a plan will re-start the commitment
- For all plans, allowances only include Background IP services. All other services will be out of bundle. Unused allowance does not carry over month-to-month.
- Early terminations of yearly service plans are subject to a cancellation fee equal to three months of monthly fees based on plan type.
- The Implied In Bundle Standard IP rate is the approximate price per MB for in-allowance, which is calculated by dividing the monthly fee by the number of MBs.
- [Remote Satellite Systems Terms and Conditions apply to all Post-paid airtime subscriptions and Pre-paid airtime purchases.](#)
