5,000 Unit Voucher	1000	10000	\$4,150.00	180 Days

Effective: April 12, 2017

- 1.) Prices are in US Dollars. Remote Satellite Systems® reserves the right to modify/change or delete plans as necessary.
- 2.) All prepaid units are subject to a Prepaid MTS Surcharge. See the Board of Equalization website for more details.
- 3.) The expiration date will be extended based upon the date of voucher redemption.
- 4.) Prepaid expirations occur at 00:00 UTC for the expiration date in question. To ensure existing airtime is not lost, recharge should be requested at least 2 business days prior to expiration.
- 5.) Unused units will roll over if SIM is topped up prior to the expiration date.
- 6.) Crew, Multi-Voice, ISDN, and Streaming Class Services are not available on Fleet One activations.
- 7.) To be eligible for the Fleet One Coastal Plan, the following conditions must all be met at all times throughout the service term:
 - (a) Vessels provisioned on Fleet One SIMs on the Coastal Prepaid Plan must either be small vessels that are less than 500 GRT or larger vessels that are solely engaged in fishing or are pleasure yachts.
 - (b) Vessels must have a Maritime Mobile Security Identity (MMSI) which is to be provided upon provisioning.
 - (c) Vessels must receive the service using an Inmarsat type approved Fleet One terminal.
 - (d) "Vessels" must not be floating / fixed platform, or rigs.
- 8.) Upon request from Remote Satellite Systems®, the customer must demonstrate to the company's satisfaction that the vessel is eligible for a Fleet One Coastal Plan.
- 9.) Fleet One Coastal Plans provide specialized pricing within designated geographical areas. These are referred to as the "Home Region". For vessels that activate on a Fleet One Coastal Plan, data services are restricted to the "Home Region" only. When a vessel moves out of the "Home Region", data services will not be available. Voice services are available without any geographical restriction.
- 10.) The map highlights what is considered the home region for Fleet One Coastal plans. Note that the map is indicative. Coverage has been extended for all Fleet One Coastal Plans to include: all continental coastlines to 200NM or greater, including Panama, Suez, Malacca, and all inland waterways. Inmarsat will be releasing an app to allow vessels to monitor how close they are to a boundary. Note that coverage limitation only applies to data services.
- 11.) Implied minutes represents calls to cellular or fixed lines in the United States.
- 12.) Implied minutes and MBs represent the total amount that could be used if the voucher was used solely for that service. For clarity, with a 50 unit voucher, usage can be up to 10 MBs *or* 100 minutes of usage, but not 10 MB *and* 100 minutes.
- 13.) Effective November 7th, 2016 voucher removals / replacement vouchers can longer be issued for prepaid SIMs.
- 14.) [Remote Satellite Systems Terms and Conditions apply to all Post-paid airtime subscriptions and Pre-paid airtime purchases.](#)
