Effective: Sept 10, 2019

- 1.) Prices are in US Dollars. Remote Satellite Systems® reserves the right to modify/change or delete plans as necessary.
- 2.) Voice traffic bills in 20 second minimums / increments.
- 3.) All prepaid units are subject to a Prepaid MTS Surcharge. See the Board of Equalization website for additional details.
- 4.) There is a 90-day grace period to reload an additional voucher and avoid deactivation after expiration date. To ensure existing airtime is not lost, recharge should be processed at least 48 hours prior to expiration.
- 5.) Effective November 7th, 2016 voucher removals / replacement vouchers can no longer be issued for prepaid SIMs.
- 6.) Remaining balance will be announced at the beginning of every call.
- 7.) Standard Prepaid vouchers work globally, and are rechargeable. Calls to PSTN (voice and data) are charged 60 units per minute.
- 8.) Iridium GO! Prepaid rates are only available on Iridium GO! Terminals. Usage on a Standard Iridium Handheld will cause the usage units to revert back to Standard Prepaid rates. Available for new Prepaid Accounts only. Existing balances cannot be transferred. Iridium Direct Internet GO! Data call type pricing specific to Iridium GO! Access Number only.
- 9.) Northern Lights Prepaid vouchers only work within Canada and Alaska. Expiration date will be set to 6 months from date of activation or recharge. Calls to North America are charged 24 units per minute.
- 10) Effective February 15, 2017, all topups made with MENA Prepaid vouchers will only work within the MENA region. They will no longer work globally with a reduced rate. SIMs currently active with an existing MENA Prepaid account will continue to work outside of MENA until a topup occurs after February 15th, 2017. MENA Prepaid vouchers are non-rechargeable. Calls from within the MENA Region are charged 60 units per minute.
- 11.) Seasonal Prepaid vouchers work globally, and are non-rechargeable. Calls to PSTN (voice and data) are charged 60 units per minute. See "Iridium Prepaid Details" for full details and terms & conditions. The Seasonal Prepaid 750-Minute Voucher will be discontinued as of 30 April 2019.
- 12.) 300 minute Non-Rechargeable Global Prepaid vouchers work globally, and are non-rechargeable. Calls to PSTN (voice and data) are charged 60 units per minute.
- 13.) Africa Prepaid vouchers only work within Africa. Expiration date will be set to 12 months from date of activation or recharge. Calls to PSTN are charged 24 units per minute.

- 14.) Latin America Prepaid vouchers only work within Latin America. Expiration date will be set to 6 months from date of activation or recharge. Calls to PSTN are charged 24 units per minute.
- 15.) All Prepaid SIMs have a 90 day grace period from the date that the card expired or the date that the card is activated where it can be recharged. Iridium Prepaid SIM Cards are automatically deactivated after the 90 day grace period is over.
- 16.) Prepaid units that have been carried over for more than three years will be expired on a daily basis from prepaid account balances. For any customer who has purchased a 3k / 5k e-voucher, a four year expiry period on units will apply.
- 17.) Prepaid subscribers will be given the total number of units that may expire if not used within the next six months upon calling or sending an SMS to 2888 from their Iridium handset.
- 18.) Because 50-minute vouchers do not include any expiry time, 50-minute vouchers used at initial activation will automatically add one 30-day-voucher at the same time. To clarify, submitting a 50-minute voucher at activation will add a 50-minute voucher plus a 30-day voucher, and be charged accordingly.
- [19.\) Remote Satellite Systems Terms and Conditions apply to all Post-paid airtime subscriptions and Pre-paid airtime purchases.](#)
