Effective: March 28, 2016

- 1.) Prices are in US Dollars. Remote Satellite Systems® reserves the right to modify/change or delete plans as necessary.
- 2.) Mid-month activations will be pro-rated, however, mid-month deactivations will be charged in full.
- 3.) Rudics is available as an option on the Iridium Standard Plan (included as part of the Standard Plan Monthly Fees) or via an Iridium Rudics Data Only Plan (using the Monthly Fee (Data Only)).
- 4.) Rudics is not available on a SIM activated on the Crew Calling Plan or Emergency Plan.
- 5.) There is a one-time setup and license fee for the initial configuration.
- 6.) Fee includes unlimited simultaneous, mobile-originated calls and up to 5 simultaneous mobile-terminated calls on the Rudics service.
- 7.) The Monthly Terminated Port Fee is charged in increments of 5 above the initial 5.
- 8.) There is an additional Monthly Terminated Port Fee if you require more than 5 simultaneous mobile-terminated sessions. It is then dependent upon how many simultaneous sessions you have and is charged in increments of 5. In other words, if you have 8 mobile terminated sessions running simultaneously, you would have to pay for one additional Monthly Terminated Port Fee (the original five are included). This all depends on how many SIMs will be receiving connections at the same time, not how many SIMs
- 9.) Beyond the normally recurring monthly fee associated with Rudics is the monthly fee on the SIM card. You can activate the SIM on the normal Standard Iridium Plan which allows voice services as well as Rudics data services or you can activate the SIM on the Rudics Data Only Plan which will not allow any voice services on the SIM.
