## **1. WELCOME**

Today's wireless devices provide more options for staying in touch with friends and family than ever before. Unfortunately, they are dependent on wireless networks. Now you can take your computer beyond wireless with the world's most reliable satellite hotspot.

- Easily send and receive email via Wi-Fi enabled computer
- Conveniently use existing device contacts via the Sat-Fi App
- Fastest data speeds in the industry for sending and receiving email
- Designed for both vehicle/vessel-based and fixed locations
- Connect up to 8 users to Sat-Fi at one time
- Powered by the world's newest, most modern satellite network

Sat-Fi turns your computer device into a satellite enabled device

- 1. Download and install Sat-Fi for Windows to your computer
- 2. Connect your computer to the Sat-Fi via a Wi-Fi connection.
- 3. Sat-Fi links your computer to the Globalstar Satellite Network.
- 4. Your computer is now a connected for email and data.

#### 2. INSTALLING THE SAT-FI APP

You will be able to send and receive email and data via the Sat-Fi App. The Sat-Fi App can be found on the Globalstar Sat-Fi Support Page.

Perform the following to download and install the Sat-Fi App for Windows:

- Step 1 On a Windows computer connected to the Internet, proceed to the <u>Globalstar Sat-Fi</u> <u>support Page</u> and download the Sat-Fi App for Windows.
- Step 2 A Welcome to Wireless Gateway ver 4.1 Setup Wizard screen will be displayed. Click on Next>.
- **Step 3** A License Agreement screen will be displayed. Click on **I Agree**.
- Step 4 A Choose Components screen will be displayed. Leave the default settings and click on Next>.
- Step 5 A Choose Install Location screen will be displayed. Leave the default settings and click on Next>.
- Step 6 The *Next*> button will change to *Install*. Click on Install.
- Step 7 The program will begin installing. When it is finished the Welcome to the Aspell 0.50-3 Setup Wizard will be displayed. Click on **Next>**.
- Step 8 A License Agreement screen will be displayed. Click on I Agree.
- Step 9 A Choose Install Location screen will be displayed. Leave the default settings and click on Install.
- Step 10 The program will begin installing. When it is finished a Completing the Aspell 0.50-3 Setup Wizard will be displayed. Click on Finish.
- Step 11 A Completing the Wireless Gateway ver 3.86 Setup Wizard will be displayed.
  - Select Reboot Now
  - Click on Finish.
- **Step 12** Your computer will now shutdown and reboot.

# **3. ACTIVATING THE SAT-FI APPS**

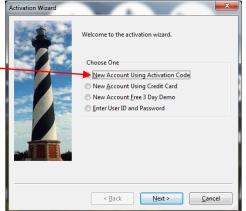

#### Sat-Fi Data Access Vouchers

You must have a Data Access Voucher to send and receive email & data via the Sat-Fi App. Your Sat-Fi Data Access Voucher was issued to you at the time of purchase from the dealer

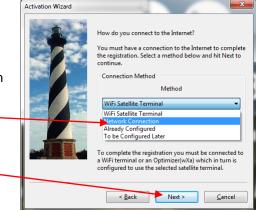

#### New Sat-Fi Account

You must have a connection to the Internet to activate your Sat-Fi App for Windows. Perform the following to activate the Sat-Fi App for Windows:

Step 1 After your computer has rebooted, the Activation Wizard will be displayed. Select New Account Using Activation Code and click on Next>.

- Step 2 A how do you want to connect to the Internet screen will be displayed asking you "How do you want to connect to the Internet?" Perform the following:
  - Click on the Connection Method drop-down arrow and select *Network* Connection
  - Click on Next>

- **Step 3** A Registration Notice screen will be displayed. Perform the following:
  - Click on the *I have read and agree to the license term and conditions* checkbox
  - Click on OK

ĺ	Registration Notice	x
	Thank you for choosing Sat-Fi(tm). Sat-Fi provides the fastest, most reliable, on-demand access to wireless e-mail information in the world.	*
	All E-Mail content downloads are charged on a monthly basis.	
	You must be a registered user with Globalstar to use this E-Mail service.	
	If you have already registered with Globalstar for E-Mal service and received a user logon id and password from them then hit CANCEL and enter this information in the Account Information dialog under the E-Mall Gateway tab accessed through the Options/Settings menu selection.	
	You can register this product through one of the following methods:	
	<ol> <li>Configure your Connection Information under the Connection tab accessed through the Options-&gt;Settings menu for Windows/Linux or Preferences for Mac OS X, then select "Registration Wizard" from the Program menu.</li> </ol>	
	2. On line at http://www.globalstar.com	
	3. By phone at +1.985.327.7500	
	Thank you for choosing Sat-Fi.

			Seconds before send/receive timeout: 60
			Access Restrictions
			Protect settings Protect spool folder Protect account management
Step 7	Click on OK.		Enter Password:
			Verify Password:
			OK Cancel

# 6. COMPOSING & SENDING EMAIL

To maximize the benefits of Sat-Fi, you will create email and read email offline. You can create and send one email at a time or create multiple emails and send them all at once. Your Sat-Fi for Windows must be registered and activated to send/receive email.

Perform the following steps to compose and send email:

- Step 1 On your computer, ensure you are connected to the Sat-Fi hotspot. Default Password: satfi1234.
- Step 2 Open Sat-Fi for Windows and the Sat-Fi Main Screen will be displayed. On the toolbar select

**Step 4** The Mail Transfer Status bar will also turn green showing the transfer progress and the connection information will be displayed in the Log section.

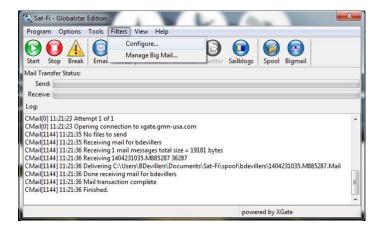

# 8. INCREASING/DECREASING EMAIL LIMIT SIZE

The default inbound and email message size is 50kb and outbound email message size is 250kb. With the default settings, incoming email equal to or less than 50kb will be downloaded to your Inbox whenever you receive email. Any incoming email greater than 50kb will be held on the server and reported to you in the Big Mail folder. Any outgoing email greater than 250kb will trigger a rejection email message that will appear in your Inbox.

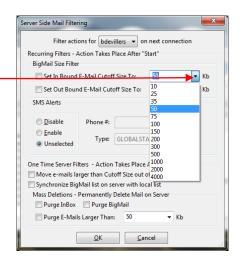

Inbound and Outbound email sizes can be increased or decreased by performing the following:

Step 1 On the Sat-Fi screen, select Filters > Configure...

**Step 2** The Server Side Mail Filtering screen will be displayed.

Click on the **Set In Bound E-Mail Cutoff Size To** drop-down arrow and select the message size limit you wish to send.

- Step 3 Click on the Set Out Bound E-Mail Cutoff Size To drop-down arrow and select the message size limit you wish to receive.
- Step 4 When finished changing the Inbound and Outbound message sizes, click on OK.
- **NOTE:** The size adjustment will occur on the next data connection and you will receive a confirmation email on the following connection.

# 9. SOCIAL MEDIA

#### Facebook

Sat-Fi for Windows allows you to post pictures and captions to Facebook. A Facebook Post-By Email Address is required to send Facebook post through Sat-Fi. If you already have a Facebook account that includes a Post-By-Email Address, proceed to Configuring the Sat-Fi App for Facebook.

#### Setting Up Your Facebook Post-By-Email Address

If you do not have a Post-By-Email Address assigned to you by Facebook perform the following:

**Step 1** On a computer connected to the Internet, login to your Facebook account.

Step 2 On the Home Page select Settings from the drop-down menu.

#### **Configuring Sat-Fi for Facebook**

Perform the following to configure Sat-Fi for Facebook posting:

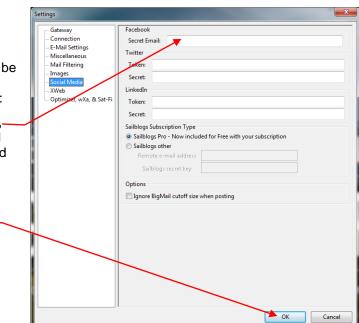

- Step 1 On your computer, turn on your Wi-Fi connection and connect to the Sat-Fi network. Default Password: *satfi1234*.
- Step 2 On your computer open Sat-Fi for Windows, and the Sat-Fi screen will be displayed. (The Facebook button will be inactive and grayed out)

- Step 3 On the Main menu, select Sat-Fi - Globalstar Edition Options > Settings... · Program Options Tools Filters View Help ettings.. Start Ste D 🕒 💽 🎯 Manage Primary Users... Sailblogs Spool Bigmail Manage Sub Accounts... Mail Transf File Transfer Control.. Send: Fetch Remote Mail Control... Receive: Log: Press "Start" to start transfer powered by XGate
- Step 4 In the left-hand pane select Social Media.

The Social Media screen will be displayed. In the Facebook section perform the following:

- In the Secret Email field, enter your Post-By-Email Address (This is assigned to you by Facebook to perform mobile postings)
- To go back to the main screen, click **OK**.

Step 5 The Facebook button will now be blue and is active.

1		*
	<u>O</u> K <u>C</u> ancel	.::

Step 5 The Sat-Fi LED Status Indicator will start blinking (Slow Blink) indicating that a data session is being initiated. Within a few seconds your Facebook post will be sent and any email waiting to be received will be delivered.

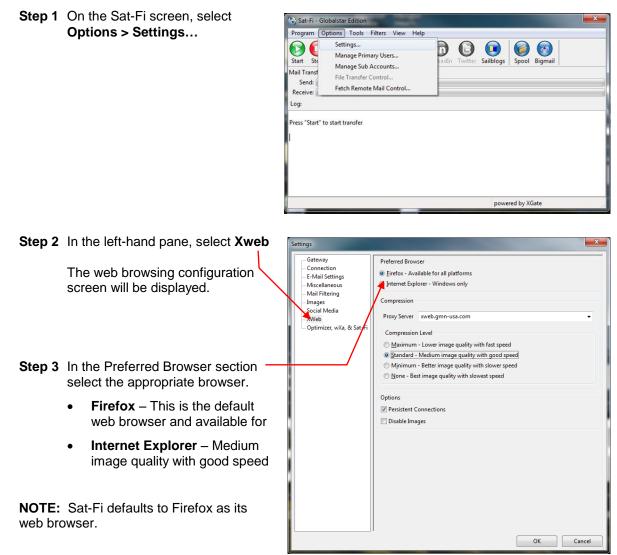

## **10. WEB BROWSING WITH COMPRESSION**

Sat-Fi employs a web compression agent that allows you to browse the Internet. Web content is compressed, background images are stripped, pop-up ads are removed, advertisements are stripped, animations are removed, and images are compressed.

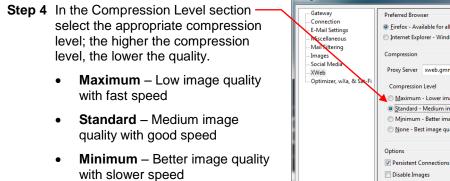

Sat-Fi can reduce the time it takes to download typical web pages up to a factor of 10x. However, even with compression, Internet browsing will be slow.

#### Configuring SAT-Fi for Web Browsing

Perform the following to configure Sat-Fi for web browsing:

• None – Best image quality with slowest speed

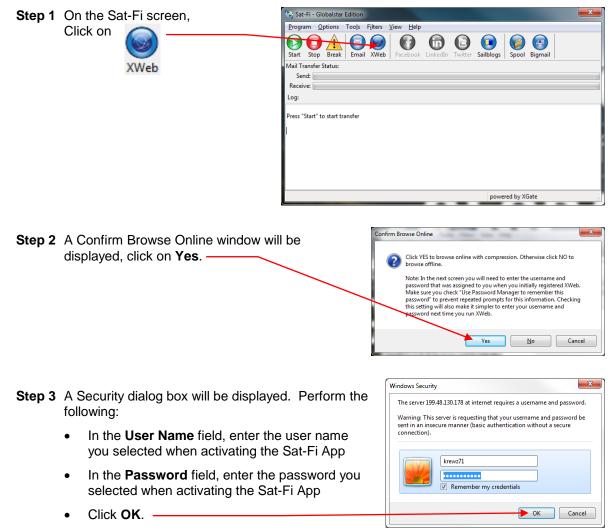

Step 5 When finished click OK.

Gateway	Preferred Browser
Connection	
E-Mail Settings	Eirefox - Available for all platforms
Niscellaneous	Internet Explorer - Windows only
Mail Filtering	Compression
Images Social Media	Compression
XWeb	Proxy Server xweb.gmn-usa.com 👻
