PHONICS FOUNDATION™

*Developing Early Literacy Skills through
Explicit and Systematic Phonics Instruction*

A 3-Day Intensive workshop by Dr Alice Tang

27 April, 4 & 11 May'19 (Saturdays) 10am to 5pm

Discover Phonics Foundation™ with Dr Alice Tang. Presented through direct instruction, Phonics Foundation™ employs a multisensory, systematic and explicit phonics instruction based on developmentally appropriate principles of early literacy instruction.

The Phonics Foundation™ method trains and equips children with word recognition strategies that significantly strengthen their visual ability to identify word patterns, apart from the essential training of blending to read and segmenting to spell.

The Phonics Foundation™ programme begins with prior knowledge of phonemic awareness to learning the letter sounds and culminates with decoding skills that give children a systematic strategic plan to read unknown words.

The 3 days of intensive workshops of participative instructions help participants acquire the requisite knowledge and skills that allow them to effectively and strategically teach the 44+ phonemes to young children.

Dr Alice has inspired me so much to love teaching phonics. Even after our first session, I was already excited to go back to school to teach my children how to read. Thank you so much! You don't know how much you've inspired and helped me.

Jennifer Saria
Intake 53 (April 2018)

Two years, worth the wait! Phonics Foundation has equipped me with rich content that is developmentally appropriate for the children I teach. Dr Alice has lived up to the many good words people say of her workshop. Thank you, Dr Alice!

Amal

PHONICS FOUNDATION™

Developing Early Literacy Skills through Explicit and Systematic Phonics Instruction

A 3-Day Intensive workshop by Dr Alice Tang

What this course covers:

- Understanding the role of phonics in early literacy development
- Understanding grapheme-phoneme relationships
- Conducting explicit instructions through multi-sensory participation
- Auditory discrimination techniques
- Visual phoneme training with the corresponding graphemes
- Conducting strategic instructions for blending to read and segmenting to spell
- Handling exceptions
- Teaching of irregular words
- Assessing learning outcomes
- Extensive modelling and practice of individual skills
- Conducting activities to strengthen motivation and reinforce understanding
- Strategies to complement guided reading activities
- Classroom activities for vocabulary development
- Complementing explicit phonics instructions with language application
- Integration with Early Literacy programme
- Integration with teaching resources

About Alice

Alice completed a Doctorate in Education at The University of Western Australia. She holds both a Master of Education in Educational Leadership and Management from RMIT University and a Master of Science in Early Childhood Education from Wheelock College. For the last 17 years, Alice has been actively involved in the design, implementation, assessment and intervention of school wide literacy programmes. Alice has established a reputation as a highly perceptive and knowledgeable educator with an uncommon adroitness in addressing the nuances of teaching and managing in a multi-cultural Singaporean setting based on sound pedagogy.

Became more confident as I am more aware of the letter sounds and lesson planning. It will definitely aid in my teaching of literacy lessons. Thank you so much!

Felicia Szetu

Intake 55 (September 2018)

Dr Tang was very precise and professional. Loads of positive encouragement and motivation, it was brilliant!

Swee Peng

Intake 53 (April 2018)

After attending these workshops, I learnt more about how to simplify and make sure that the child understands the instructions clearly/better. And that the sound is very important. It was a very interesting course, very practical and useful.
