

LED TRACK LIGHTS SERIES

ABOUT US

Who are we?

United Canada Inc. was founded in 2007 in Toronto, Ontario. As part of an emerging hot spot of designers from different countries, the vibrant team at UNITED CANADA Inc. Creates modern influenced lighting products. We are continuously looking to provide our customers with the highest quality products that don't break the bank. Ranging from basic outlet covers to LED Emergency lighting systems, we have it all and are constantly updating and improving our inventory to reflect current trends and updates in the lighting industry. Look no further for the solution to all your lighting and electrical accessory needs, our knowledgeable and friendly staff is here to help you find your perfect solution. Connect with us today!

It's all in a name

As a Canadian-born company, we feel it's important we honor Canada and all the Canadian innovators and changemakers who have come before us and made the country what it is today. As an homage to them, we have named our Outdoor Lighting Collection after notable Canadian inventors, artists, activists and otherwise outstanding Canadians who have all in their own way make their mark on Canadian history. It's our way of showing gratitude for all they have done for us, work that not only Canadians but people across the world continue to benefit from each and every day.

INDEX

PRISCILLA

Magnetic light system

Where need to be Where is illuminated

The magnetic lamp can be in orbit in the channel slot for an unlimited time, change positions, and adjust the lamp holder angle according to the actual situation. Different lamps and lanterns along the whole track are placed in the right place, rotating and sliding into any position. All lamps and lanterns are adjusted according to demand.
