JEWEL

SCREWLESS ELECTRICAL ACCESSORIES

Proudly
Canadian
SINCE 2007

Introduction

The simple and clean style of our Jewel collection was designed to cater to both modern and contemporary themes, making it an ideal fit for a variety of environments. With a 4mm side profile and concealed screws, you don't have to choose between functionality and elegance because the Jewel series has it all.

In addition to a broad range of refined styles, the Jewel series switches comply with the highest safety standards. Each switch features United-Canada Inc.'s three-pin safety shutter, which prevents misuse and unauthorized access to live circuitry.

Our Jewel collection assures users that they have the safest wiring devices available installed in their homes. Our innovative Jewel Series switches are entirely screwless, battery-free, and fully self-powered, and are exclusively available from United Canada Inc.

Features

Slim profile 'screwless' front plates of only 4mm thick

Provides a clean and flawless look that complements the décor of the finest interiors.

Total safety

The 3-pin operated child-resistant shutter system is designed to prevent access to electricity unless all three pins of a standard 13A plug are correctly inserted.

13 standard high quality finishes

Spadina is now available in a range of styles and colors.

Outstanding range

We offer an extensive range of wiring devices that offer a comprehensive solution to any lighting-related issue.

Design service

Ideal for situations where a unique or innovative solution is required.

FORM MEETS FUNCTION

WITH UNITED CANADA Inc., SIMPLICITY IS BEAUTY.
Discover why United Canada Inc. should be your trusted source
for wiring devices

FEATURES & BENEFITS

01

WARRANTY

Each switch comes with a
Lifetime warranty

02

SAFE

Equipped with a double rocker
mechanism to prevent sparks

03

RELIABLE

Easy installation thanks to captive
screw terminals in both the
switches and sockets

04

USER FRIENDLY

Sockets each have an easy-to-operate
three-pin shutter mechanism

05

SAFE TO INSTALL

Tunnel terminals in sockets
help prevent short circuits
during installation

06

EASY INSTALL

EASY TO INSTALL
Top insert wires for all sockets
mean fast and reliable
installation

TIMELESS HARMONY

NEW NEUTRAL FINISHES

ROCKER SWITCHES

- Easy to install (simply replace the old socket - no additional wiring required!)
- Self fire- extinguishing ABS plastic module casing.
- High - quality plastic face plate made to last - will not fade in direct sunlight or get scratched easily.
- Easy clean - keep your switches looking good as new!
- Lifetime manufacturers guarantee.

ARE YOU READY TO BE DEFINED BY DESIGN

United Canada Inc. is delighted to introduce our brand-new range of Jewel sockets and switches.

Jewel is a complete range of unique light switches and sockets available in a variety of colours - White, Sonic Grey, Graphite, Pearl and Titanium. Design led for an elegant, seamless, retrofit, you can trust Jewel for any project you're working on. The Jewel series is designed and manufactured in Canada, using new and innovative ideas that put these products in a league of their own.

These switches and sockets are made with durability, ease and structure in mind, using the highest quality materials including ABS plastic (self fire-extinguishing for your safety) and a plastic faceplate with anti-fading technology. Our Jewel range is suitable for all commercial and residential environments, with multiple design variations to always ensure there is a product that fulfills all your requirements.

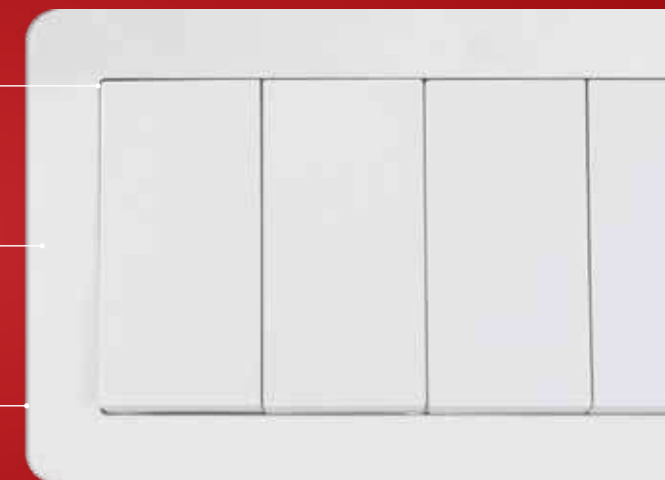

FEATURES & BENEFITS

Wide Rockers

Concealed Screws

Slim Profile clip-on cover

Switches

Premium modular switches with special click-on mechanism

Simple, modern design meets practical engineering innovation. The new UNITED CANADA Dimensions range is perfect for every setting.

NO VISIBLE SCREWS

Thanks to a stylish screwless design and flexible range of eight modern finishes, the United Canada Dimensions range blends seamlessly with any contemporary space.

United Canada's design service also offers a made-to-order option, so we can make your visions come to life through customized solutions.

Colours and finishes to match every decor

Gone are the days when switches were looked at as just a utility. Today, with enormous varieties in colours, finish and materials, designers use switches as props to enhance their creations.

Jewel smartfit advantage

- Wide variety of colours.
- Optional metallic finishes
- Available in glass, matte and textured matt finishes.

GROWING WITH USERS NEEDS

ADAPTIVE TO SUIT OUR EVER-CHANGING LIFESTYLES

The dynamic design of the Jewel series switches makes it easy to change your mind. Since no complex BUS system or intricate cable work is required upon installation you are left with the option to adjust, reposition or entirely move the location of the switches – hassle free!

PUT THEM ANYWHERE

Wireless switches allow you to have the freedom to place your controls exactly where you want them – perfect for families with growing children. Simply re-adjust the light switch position along the wall as they grow and watch them illuminate a world of possibilities!

From all angles.

No matter how you look at it - from the front, back, or side - the lisse range is designed to make your life simple. Get installation right the first time, every time.

Backed out and captive screw terminals to allow for positive drive and speedy installation

Twin earth terminals on all 2 gang 13A socket outlets, for high integrity earthing

Angled terminals for easier access

Light grey back moulding colour for easier terminal identification

Cable markings on all products with a moulded template to check the wire length

AS UNIQUE AS YOU ARE

FUNCTIONALITY MEETS DESIGN

Jewel doesn't only offer unique responses to all user requirements in terms of functionality. They also add a touch of style to the overall look and feel of any environment, seamlessly blending into a wide range of interiors.

Switched Sockets

New and improved design to meet international standards. Each product is designed with precision engineering to ensure a longer service life and a highest degree of safety.

Easy click-on mechanism for faster installation

We are living in an era of instant gratification – the world is at our fingertips and we are progressing faster than ever. Tradition is quickly being replaced with more modern practices, which allow for instant use, something that is becoming increasingly more important to the current consumer. With our new Jewel range of mini-rocker premium switches we wanted to reflect these ideologies and give the modern consumer what they desire.

Mini Rocker Switch Socket advantages

- No more screws – significantly reduces installation time
- Easy installation – less dependent on skilled labor which means “more savings for you”
- Modular design, with front loading
- Unique base plate design

DECORATE YOUR HOME
with our vibrant range of
Jewel Switches

ALWAYS FULL POWER USB CHARGES FOR THE HOME

Conveniently placed USB chargers at home allow you to charge your mobile devices easily wherever it's handy: near the entrance, by the bedside or in the kitchen. Jewel has a suitable solution for every kind of mobile device.

Integrated USB Features

- USB 2.0 and 3.0 compatible.
- Dynamic Device Recognition ensures that USB outlets provide optimum charging compatibility across a wide range of devices.
- Can charge a device at up to a full 2A. If only one device is connected to a USB Outlet the total output current of 2A is available from either outlet, if two devices are connected the total rated current of 2A is divided between the two outlets.
- Different manufacturers devices can be charged simultaneously via the two USB Outlets.
- If the total charging current exceeds the rated level of 2A then the device will enter a current limiting safety mode, to maintain a steady charge.
- Electronically protected against an overload or short circuit on either USB outlet.

Easy Installation

- Printed terminal markings on grey rear mouldings for clearer identification.
- Backed out and captive terminal screws.
- Top access, angled terminals make wiring easier and quicker.

Quality, Safety and Reliability as Standard

- Totally safe 3 pin operated safety shutter on 13A Socket Outlets.
- Double pole switching.
- 3mm minimum switch contact gap.
- Additional electrical safety from neutral 'make first', 'break last' feature.
- SELV isolation between mains and USB outlets for safety.
- Switch contacts with silver contacts on both surfaces for good continuity.
- Dual earthed for high integrity earthing applications.

Make Your Home Truly Yours

Mega Switches

Homes are made of dreams.... and dreams are precious. Designed for safety, special protective features in JEWEL Switches help prevent accidents and protect people, assets and all your dreams.

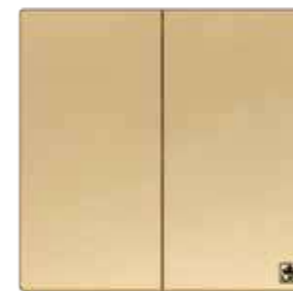

For those who care - who understand the value of safety and protection of their loved ones

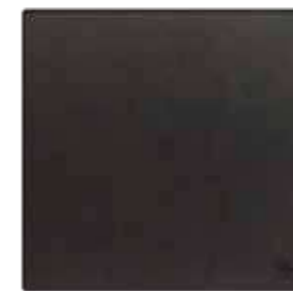

Many modern homes have integrated a number of electronics and electrical products into the framework of the house. This means it has become essential to check the safety aspects of these electronics in order to protect families from unforeseen dangers. At United Canada, quality and safety are non-negotiable. Each of our products is designed with your safety in mind, safeguarding your future.

Mega safefit advantage

- Switch plunger made of fireproof thermoset plastic for extra protection
- **Surface protection** : Highly resistant virgin thermoplastic material for a high gloss smooth surface finish.
- **An extra level of protection** : Elliptical spring loaded contacts in sockets grip plug-pins tightly ensuring uniform and firm contact.
- Heavy metal contacts ensure better conductivity.

Data Sockets

Our sleek, unique and stylishly designed data sockets combine functionality and style with ease. Transform any space into a media center – it's never been easier.

Data Sockets:

All data sockets are equipped with toolless connectors. You can also reuse the connectors even in the case of termination issues – we've thought of it all so you don't have too!

Easy Install:

All the data sockets will have toolless connectors. You can re-use the connectors even in case of termination problems.

Fused Connection Units

Fused spur units are also used for high powered electrical equipment with heavy continuous loads, so that the appliance can be isolated by a single cable from a ring main for safety and maintenance purposes.

Dimmers

Adjusting the lighting in a room is a quick and efficient way of setting a tone, and the most effective way to do so is to install a dimmer switch. A dimmer switch can take a room from cold to cozy in seconds, all with the single turn of a knob, creating the perfect environment for any occasion. Swapping out a regular light switch for a dimmer switch is one of the easiest DIY electrical products for a homeowner – but remember to always be careful when working around electricity.

Features

- Intelligent and LED Intelligent Dimmer Switches.
- Suitable for dimming Low Voltage Halogen lamps via good quality, fully dimmable electronic or wire-wound transformers.
- LED Intelligent dimmer switches are suitable for dimmable LED bulbs for incandescent replacement.
- Can be used with high quality main voltage halogen lamps. Please check with the lamp manufacturer to determine suitability.
- Load current sensing: These dimmers continuously monitor the load current to help protect against overheating in wire wound transformers and to prevent overloading of the dimmer for long term reliability.
- Soft Start, which gradually increases the light output from the load over 1 to 3 seconds after switch on. The Soft Start feature is also particularly beneficial when used to dim Mains Voltage Tungsten Halogen lamps which inherently have a very high inrush current at switch on.
