about getting sick.
What can I do?*

*A Social Story for children
who use AAC*

We bring speech to life™

- With technology that helps improve communication.

People are worried about
getting sick.

If I'm worried, I'll use my _____
to tell _____.

Most people who get sick will
feel better in a few days or a
few weeks.

Some people will stay home
in bed if they get sick.

Some people may have to
go to the hospital if they
get sick.

I might have to stay home if I
feel sick. If I have to stay
home, I'll be able to

_____.

Some people wear masks, face shields, gloves, or gowns to help protect us from germs.

People look different when they wear these things. I do not need to be afraid, they are still the same person underneath.

If I feel sick, _____ will
take care of me. I'll use
my _____ to tell
_____ how I'm feeling
and ask for what I need.

I can do some things to help
me from getting sick, like
wash my hands and keep my
_____ clean.

I wash my hands with soap
and water while _____

If I don't have soap, I

If I have to cough or sneeze, I'll
put my _____ down and
_____.

AHH-
CHOO!

It's OK to wave to people instead of shaking hands or hugging.

If I do these things, I can help to
keep myself from getting sick,
and other people too!

Talk To Me Technologies provides speech-generating devices for children and adults with all levels of communication difficulties.

Every device is backed by **ttmt360**, an exclusive service model that includes evaluation support, funding/insurance assistance, service, training and on-going support. ttmt360 ensures that every individual receives the right combination of technology, access method and vocabulary from the start - so communication begins as quickly as possible, with long-term growth in mind!
