

## wego A Quick Reference Software Update

Installing updates regularly will help ensure that your vocabulary/page set software runs properly. The following instructions will guide you through the software update process.

## Initial Setup: Turn On Access to the App Store

- 1. Turn off Guided Access: quickly triple-click **Home** button to open Guided Access > enter passcode (default passcode is all 1s) > press **End** (top left).
- 2. Press **Home** button to view device home page.
- 3. Connect to Wi-Fi if not already: **Settings** > **Wi-Fi** > connect to your network.
- 4. Settings > Screen Time > Content & Privacy Restrictions > enter passcode: 9357.
- 5. At the top of the screen, toggle **Off** Content & Privacy Restrictions.
- 6. Press Home button and App Store icon will show on device home screen.

## Update Software in the App Store

- 1. Select the **App Store** icon.
- 2. Select Updates on the bottom menu bar to display applications with available updates.
- 3. Select Update button next to application.
- 4. If prompted, enter your Apple user ID and password. This is printed in your User Guide. If you cannot locate your user ID or password, please contact our Support Department at 877-392-2299 option 3, or support@talktometechnologies.com.

## Update Complete: Turn Off Access to the App Store

- 1. After update is complete, press Home button to return to home page.
- 2. Settings > Screen Time > Content & Privacy Restrictions > enter passcode: 9357.
- 3. At the top of the screen, toggle **On** Content & Privacy Restrictions.
- 4. Press Home button to return to home screen.
- 5. Open vocabulary set.
- 6. Quickly triple-click Home button to return to Guided Access.

Tip: Occasionally a pop-up notification may prompt you to update the IOS software. When time allows, follow the on-screen instructions to update the operating system.
