# SYSTAINER® T-LOC

The Systainer® T-Loc range allows individual systainer® boxes to be stacked systematically on top of one another and to be locked together using the innovative T-Loc feature. This feature also enables any box in the stack to be accessed whilst still being locked together. This gives you a linked systainer® tower which is arranged in order to save you valuable space and time.

*\* Compatible with the Classis Systainer® range, Makita, DeWalt, Bosch and Festool.*

SYSTAINER® T-LOC

## PACKAGING & STORING

- ✓ Systainers come in a range of sizes to suit the majority of your needs
- ✓ Linking the individual systainers can help with organisation
- ✓ Foam inserts protect valuable items from getting damaged during transportation

## ORGANISING

- ✓ Quickly identify what you need by using our range of labels
- ✓ The systainer® system can be tailored to your trade or profession so you optimise your efficiency
- ✓ A range of inserts and foams allows you to adapt to a range of applications

## PRESENTING

- ✓ A more professional approach to deliver better results
- ✓ Create the right impression with your customers and your products
- ✓ Custom branding labels tailor the box to your brand

## TRANSPORTING

- ✓ The linkable feature connects the systainers together, making it easier and quicker to move in one go
- ✓ Made with ABS plastic to ensure the systainer® is durable.

## FEATURES

### STANDARDISED TO EURO PALLET DIMENSIONS

The dimensions of the systainer maximises the volume capacity of the standardised euro pallet dimension.

### INDIVIDUAL

Our standardised colour is an anthracite box, handle and catch. For large orders you can design your systainer® by choosing different colour variants for the box, catch and handle.

### ABS PLASTIC

The systainer® is designed to provide maximum strength using ABS plastic, a prime based material. This rugged structure ensures all systainer® boxes are impact resistant.

### CONSERVATION OF VALUE

Replace instead of throwing away! The innovative systainer® system is designed so that all the components can be replaced to maintain its durable quality.

### STACKABLE AND LINKABLE

The individual cases can be stacked and securely linked. Each case can be used and accessed individually and simultaneously.

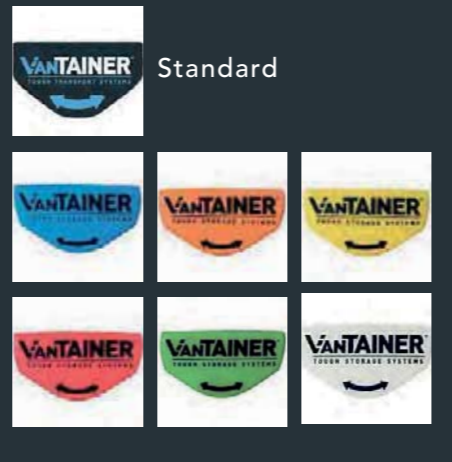

# TAILORED TO YOU

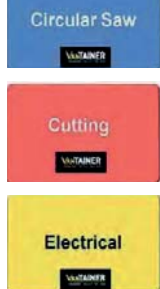

## POLYURETHANE LABELS

UV stable, weather and oil resistant, with a permanent adhesive back. Enhance your brand by customising the domed label with your logo.

Colour options:

## CONTENT ID LABELS

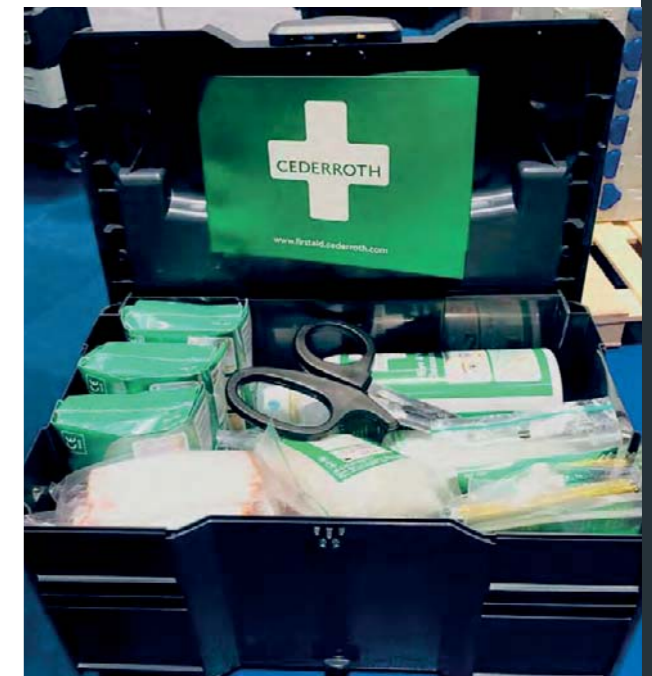

A range of polyurethane labels in different colours and various identifications which enable you to quickly identify your systainer® contents. Self adhesive they simply attach to your systainer cases.

## LABELLING SET FOR SYSTAINER T-LOC I-V

Consisting of 20 transparent plug-in cards and 2 labelling sheets with 10 paper cards each.
