

AKIN Table Light

AKIN table light is one of a kind. Integrated with ASB200 round solar module, AKIN generate 200 lumens of warm white light temperature of 2500K. Made of teak frame and bronze aluminum rod

SMART MODE:

When the solar module switches on automatically at nightfall, it knows both how much energy it has and how many hours it must provide light for. It adapts its intensity so as to remain active all night, with greater power generated at the beginning and end of the night. It switches off automatically at daybreak.

Size: 8"x8"x8"
