STONEHENGE

Ornamental. Permanent. Zen.

STONEHENGE effortlessly enforces tranquility and mindfulness to any space. Place them along pathways, entryways, amid your garden's flora, or make them a garden centerpiece. They will even get better with time, get covered by moss and lichen disappear during the day and magically reappear at night. Adding the organic aesthetics of natural stone without sacrificing the sustainability and convenience of solar-powered lighting.

Crafted from Indonesian volcanic blue stone.

Weight: 55 lb

	ASB300S	ASB500S
Feature	5 LED, 1 Battery	10 LED, 2 Batteries
