

# INTRODUCING ECOCARD85 OUR ECO 1K RFID CARD

Looking for an eco-friendly pass, ID card, transport card or hotel key card? Our **ECOCARD85** is ideal for when you need the durability of PVC but want a more sustainable option.

Manufactured from **100% recycled plastic**, choosing these cards mean you are preventing more virgin plastic from being manufactured and entering the product chain.

Lower cost compatible 1K chip card, compatible with most systems. Ask us for a sample to test.

## Specifications:

- **Material Make-up:** Made from 100% recycled PVC. The RFID chip is not recycled or recyclable, bringing the overall composition of the card down to 85%.
- **Custom Print Available:** Please ask.
- **Card Samples Available:** For testing.
- **1K chip, 13.56 MHz frequency**
- **Suitable for overprinting with your plastic card printer**
- **Ideal for Student ID, Transport, Door Access**
